LOCAL GOVERNMENT ELECTIONS

Local Government elections are held every four years on the last Saturday in March, unless changed by regulation. The Electoral Commission of Queensland is an independent and impartial organisation established under the Electoral Act 1992 to administer the Local Government elections.

The next election will be held on Saturday 28 March 2020.

There are 77 local Council areas within Queensland. South Burnett is a divided Council which means voting is separated into divisions and voters elect a Councillor to represent their division. All voters elect the Mayor for the region.

For all information regarding Local Government elections contact Electoral Commission Queensland (ECQ) website phone 1300 881 665 (Monday – Friday, 9am – 5pm).

To check your enrolment, enrol to vote or update your details see the Australian Electoral Commission website www.aec.gov.au. If you are unsure which division you are in, visit the Australian Electoral Commission website to check your division by entering your name and address.

South Burnett electoral boundary maps for each divisional area are available on the ECQ website www.ecq.qld.gov.au/electoral-boundaries/local-government-boundary-reviews/divisional-boundary-reviews/south-burnett-regional-council.

COORDINATED WILD DOG & FERAL PIG BAITING PROGRAM - MARCH

Council in conjunction with Bio-security Queensland is participating in a coordinated Wild Dog & Feral Pig Baiting Program.

Failure to control wild dogs and feral pigs can result in livestock losses, attacks on domestic pets and the loss of native fauna.

Landholders have a legislative responsibility to control declared pests on their land and participation in this program is an effective way to help meet this responsibility.

Baiting stations will be held throughout the South Burnett from 9 March 2020 to 16 March 2020. For further information and to register your intention of attending a baiting station please contact Council's Stock Route & Pest Officer on 4189 9100.

All participants must register their intention to conduct baiting no later than **Friday 14 February 2020**.

Protection of domestic and working dogs

Owners of domestic and working dogs are advised to restrain and or muzzle their dogs during the baiting program to minimise the risk of dogs wandering and coming into contact with poison baits.
