6.2 MAYOR'S BUDGET ADDRESS FOR 2020/2021 BUDGET

RESOLUTION 2020/6

Moved: Cr Brett Otto
Seconded: Cr Kathy Duff

That the Mayor's Budget Address for the 2020/2021 Budget be received.

2020-21 Budget – the first step in moving forward together:

Fellow councillors, staff, media and most importantly, the people of the South Burnett, it is with a great sense of responsibility that I table the South Burnett Regional Council's 2020-21 budget. To the people of our region, this is your money, this is your budget, this is your freshly elected council's first strategic initiative in starting the process of re-building our economy and providing you with a brighter future.

At the recent election, you the people made clear your expectations of council, reasonable expectations of better value for money for ratepayers, improved service standards, enhanced facilities for youth, families, the disabled and the elderly as well as a commitment from council to create an environment that encourages investment in our region, promotes economic prosperity and population growth and most importantly, supports the sustainable development of all communities across our rural towns and villages, irrespective of size or location.

I can say with hand on heart, that as your new mayor, I have left no stone unturned in working through the budget line by line and with my fellow councillors, our CEO and staff have made every effort to deliver a budget that provides a responsible and compassionate response to the economic challenges facing the people of our region in these unprecedented times. Having said that, this budget is far from perfect, indeed it is very much a work-in-progress and I acknowledge that we have much more work to do. It is however, an important first step and reflects the priorities outlined in council's Operational Plan for the 2020-21 financial year, priorities that constitute the early stages of creating more prosperous and liveable communities.

It is a \$108 million plan to kick start the process of building a stronger South Burnett through partnerships with higher levels of government and by working together through stronger connection to and better engagement with community.

In delivering this budget, council remains conscious of the financial, social and emotional burden endured by our region's residents through the cumulative impact of the ongoing drought and Covid-19 pandemic.

To the people of the South Burnett, those whose small businesses are suffering, who have had their hours cut or lost their jobs, farmers who are still battling the drought, families who are facing rising costs of living, pensioners and retirees who are struggling to make ends meet, we understand that you are doing it tough and that there is much uncertainty on the horizon.

In response to such, council has been careful to formulate a considered and measured response to supporting the community through these challenging times. A response that provides short-term relief without compromising the ability of council to sustain a sound financial position and asset management strategy for future generations. As such, this budget response includes:

- the first 0% general rate rise in the history of the South Burnett Regional Council, achieved through savings of approximately \$1.4 million to council's proposed operating budget. These savings will be delivered alongside a long overdue pay increase of 2.5% for staff and absorbing an expected CPI increase to the cost of materials and services of around 2%;
- a 0% increase to council controlled fees and charges;

-
- a 0% increase to the commercial wheelie bin charge in support of small business;
 - an amnesty on outstanding debt recovery during the COVID period;
 - miscellaneous case by case deferral or relief of service charges for local not-for-profit community organisations;
 - refunding all prepaid council facility reservations; and
 - a commitment to supporting local small business through reforms to council's procurement policy.

While council will receive no additional income from general rates due to the capping of such, it is important to note that some ratepayers general rates will increase, while others will decrease. This is due to the phased in valuation of their land. Council adopted 3-year valuation averaging as a means of smoothing or phasing in the large land valuation increases caused by the land revaluation undertaken by the Department of Natural Resources Mines & Energy as at 01/07/2019.

As part of council's engagement policy, I will be holding community forums across the region throughout the first week of August to provide further community information on rates and charges.

An **operating budget of \$70 million** will support the delivery of key community services and facilities maintenance programs. Within this \$70 million, **\$28 million has been set aside for asset renewals**, underpinning council's strong commitment to sustainable infrastructure across our extensive road network, water, wastewater, and community buildings and parks and gardens assets. In doing so, council is ensuring existing assets are available for the benefit of future generations.

The current year budget is projected to result in a **\$2.2 million cash surplus, with an overall operating deficit of \$3.6 million** after depreciation. A significant contributing factor is an increase in depreciation of almost \$2 million, largely due to the recent revaluation of building assets.

At 30 June 2021, council's current assets are projected to \$49.2 million dollars, including **\$43 million in cash at bank**. Current liabilities are projected to \$14.8 million.

Total assets are projected to \$951 million, with total liabilities at \$61 million, of which council **borrowings are projected to reduce to \$33.6 million**. Council has adopted a debt policy of no new borrowings for the 2020-21 financial year.

Total community equity is projected to increase to **\$890 million** by 30 June 2021.

As highlighted, this budget position reflects the first stage in the budgetary process. Council will be embarking on a series of further financial reviews during the course of the year with the objective of balancing council's financial position against economic conditions, such will include, but not be limited to:

- a comprehensive study into rating categories to create improved equity in council rates;
- an independent audit of the roads and building assets valuation reports;
- further review of asset management plans as to priorities for buildings and parks & gardens;
- a detailed review of council's motor vehicle fleet; and if necessary,
- a mid-year review of 2020-21 rates and charges in response to Covid-19.

In addition to the operating budget, asset management planning has facilitated the development of a **\$38 million capital investment program** to be shared across all communities, encompassing:

- \$22.5 million on roads, drains and bridges;
- \$5.8 million on buildings, parks & gardens;
- \$3 million on water infrastructure;
- \$3.7 million on sewerage and wastewater infrastructure;
- \$2.3 million on plant;

-
- \$350,000 on waste assets;
 - \$480,000 on information technology systems.

Providing secure and reliable water and sewerage services are a significant responsibility for councils. Our local water and sewerage network is under increasing stress due to ageing infrastructure. Long-term financial forecasts indicate that additional cash reserves will be required to fund significant capital expenditure associated with the replacement and upgrading of essential water and sewerage assets. In order to accumulate the required cash reserves, council has adopted a measured and responsible approach to increasing water and sewerage charges so as to smooth the impact on users over consecutive years.

As such, to provide for sustainable management of these critical assets, water and sewerage user charges will increase as follows for the 2020-21 financial year:

- the water access charge for urban residential users will increase by **2%** from \$611.50 per annum to **\$624 per annum** (an increase of \$12.50 per annum);
- water consumption charges will increase by **2.1% from \$1.54 to \$1.57 (3 cents per kilolitre)** on tier 1 consumption and by 2.1% on tiers 2 and 3 (an annual increase of \$1.56 per annum for a household consuming 52 kilolitres per annum);
- the wastewater (sewerage) charge will increase by **2%** from \$724.70 to **\$739 per annum** (an increase of \$14.30 per annum);

Overall, most urban residential ratepayers will pay an additional \$28.36 per annum for water and sewerage services.

The current water feasibility study funded by the commonwealth governments National Water Infrastructure Development Fund will be crucial to identifying future solutions for water security and will provide a platform upon which council will actively pursue government investment in our region's water infrastructure needs.

Council cannot rely solely upon ratepayers to fund our aged and deteriorating water and waste water network and as such will need to lobby state and federal governments to recognise and support this critical infrastructure for our rural communities.

Council is compelled by state legislation to make provision for future landfill costs. Long-term financial forecasts indicate that additional cash reserves will be required to fund significant capital expenditure associated with future landfill. In order to accumulate the required cash reserves, council has again adopted a measured and responsible approach to increasing waste charges so as to smooth the impact on users over consecutive years.

As such, waste user charges will increase as follows for the 2020-21 financial year:

- the waste management levy will increase by 8% from \$150.50 to **\$162.50 per annum** (an increase of \$12.00 per annum), including a \$2.50 charge to maintain the current opening hours at all tips and to increase the opening hours at the Murgon and Wondai tips to seven half days per week;
- domestic wheelie bin charge will increase by 2% from \$165 to \$168 per annum (an increase of \$3.00 per annum);
- there will be no increase to the commercial wheelie bin charge, remaining at \$243 per annum;

Overall, most urban residential ratepayers will pay an additional \$15.00 per annum for waste collection and disposal services.

The community rescue and evacuation levy will increase from \$4 per annum to \$5 per annum, with all funds going directly to Lifeflight.

The state emergency management levy, also known as the rural fire levy will not increase, remaining at \$130.20 per annum.

This means that most residential ratepayers will have an increase of \$44 a year, or 85 cents a week, with the total change in rates and utility charges of 1.79% compared to rates and utility charges levied in 2019/2020.

Rural ratepayers without water, sewerage and bin collection services are not subject to these charges

Council's maximum \$200 pensioner rebate remains, matched by the \$200 maximum State Government pensioner subsidy.

I will continue to advocate strongly to state and federal governments on behalf of the people of the South Burnett for a more equitable share of funding. Insufficient funding from government for council operations has repeatedly compromised our capacity to deliver essential services and infrastructure and to minimise the burden on ratepayers.

Private sector investment is a key strategic priority for council, our ability to grow our population and provide improved living standards for our people is significantly dependant on long-term job creation. Fostering greater diversity in our regional economy is a key factor in building increased resilience and economic security.

Council will work to engage much more productively with private companies and public sector agencies to foster industry growth across our region in sectors such as agricultural production, food processing, freight distribution, manufacturing, the Arts and tourism.

Mental health issues across the state of Queensland have been further exacerbated by the Covid-19 crisis. I am confident that our region can provide a healthy option for people seeking a more balanced and authentic lifestyle post Covid-19 and as such lead to a renewed period of tree change inspired population growth.

By working together we can position our region to achieve its potential. A potential for enhanced liveability and economic prosperity that is underpinned by our enviable country lifestyle, welcoming communities, an abundance of rich and diverse natural resources, close proximity to burgeoning coastal and urban populations and emerging export hubs, including Toowoomba's Wellcamp Airport.

I wish to acknowledge and thank my fellow councillors, our CEO, Mark Pitt, council staff and in particular our general manager of finance and corporate services, Susan Jarvis and her staff for their concerted efforts in bringing the 2020-21 budget to fruition.

I have a strong sense that the current decade will provide a renewed period of regional prosperity. By uniting as one region comprised of many diverse communities, we will move forward together.

6.20 WASTE MANAGEMENT UTILITY CHARGES 2020/2021

RESOLUTION 2020/24

Moved: Cr Roz Frohloff
Seconded: Cr Danita Potter

That in accordance with Section 94 of the *Local Government Act 2009* and Section 99 of the *Local Government Regulation 2012* Council make and levy waste management utility charges, for the supply of waste management services (including the storage, collection and removal of general waste) on all land and structures to which a waste management service is supplied or, in the case of rateable land which is occupied, made available by Council as follows:

1. Council's Discretion to Levy Waste Management Utility Charges
 - (a) If premises are in an area in which Council conducts or will conduct general waste collection, Council may levy waste management utility charges having regard to:
 - (i) the nature and volume of general waste produced, or to be produced, as a result of the ordinary use or occupation of the premises; and
 - (ii) the number of standard general waste containers supplied to the premises; and
 - (iii) the size and type of each standard general waste container supplied to the premises; and
 - (iv) the nature of the general waste stored, or to be stored, in each standard general waste container, for example, whether the standard general waste container is set aside for the storage of:
 - (1) commercial waste; or
 - (2) domestic waste; or
 - (3) recyclable waste (but excluding green waste); or
 - (4) recyclable waste (but limited to green waste); and
 - (v) how often Council will arrange for the collection of general waste from each standard general waste container supplied to the premises.
 - (b) For the avoidance of doubt, in making a determination about the levying of waste management utility charges for premises, from time to time, Council is not obliged to have regard to:
 - (i) the extent to which the owner or occupier of the premises elects to utilise, for the storage of general waste, 1 or more of the standard general waste containers supplied to the premises for, or on behalf of, Council; or

- (ii) the extent to which the owner or occupier of the premises elects to utilise, for the storage of general waste, 1 or more containers, other than standard general waste containers supplied to the premises for, or on behalf of, Council.
- (c) Council delegates, to the chief executive officer of Council, the power to make a determination about the levying of waste management utility charges for premises having regard to the criteria specified (service category) in section 0 below.

2. Waste Management Utility Charges for the Collection of General Waste

Service Category	Charge per Service
A collection service for the collection of domestic waste from a 240 litre waste container servicing domestic premises in the designated waste collection area for Blackbutt, Crawford, Hivesville, Kingaroy, Kumbia, Memerambi, Murgon, Nanango, Proston, Tingoorra, Wattlecamp, Wondai or Wooroolin and prescribed Villages (other than the Bunya Mountains) and some specifically identified sub divisional areas.	\$168.00
An optional collection service for the collection of domestic waste from a 240 litre waste container servicing domestic premises not situated in the designated waste collection area for Blackbutt, Crawford, Hivesville, Kingaroy, Kumbia, Memerambi, Murgon, Nanango, Proston, Tingoorra, Wattlecamp, Wondai or Wooroolin and prescribed Villages (also not situated in the Bunya Mountains) and some specifically identified sub divisional areas.	\$168.00
A collection service for the collection of commercial waste from a 240 litre waste container servicing commercial premises in the designated waste collection area for Blackbutt, Crawford, Hivesville, Kingaroy, Kumbia, Memerambi, Murgon, Nanango, Proston, Tingoorra, Wattlecamp, Wondai or Wooroolin and prescribed Villages (other than the Bunya Mountains) and some specifically identified sub divisional areas.	\$243.00
An optional collection service for the collection of commercial waste from a 240 litre waste container servicing commercial premises not situated in the designated waste collection area for Blackbutt, Crawford, Hivesville, Kingaroy, Kumbia, Memerambi, Murgon, Nanango, Proston, Tingoorra, Wattlecamp, Wondai or Wooroolin and prescribed Villages (and also not situated in the Bunya Mountains) and some specifically identified sub divisional areas.	\$243.00
Bunya Mountains waste management utility charge	\$168.00

The Bunya Mountains waste management utility charge is a separate utility charge levied in respect of:

- (a) the complexity and difficulty of waste management service provision for the Bunya Mountains; and
- (b) the collection of domestic waste from domestic premises situated in the Bunya Mountains in circumstances where the domestic waste is deposited in, and collected from, bulk waste containers which are set aside for the collection of domestic waste at the Bunya Mountains.

6.23 WATER SUPPLY ACCESS CHARGE METHODOLOGY 2020/2021

RESOLUTION 2020/27

Moved: Cr Roz Frohloff
Seconded: Cr Danita Potter

That pursuant to Section 92(4) of the *Local Government Act 2009* and Section 99 of the *Local Government Regulation 2012* Council make and levy water utility charges based on the following methodology to determine water access charges to be levied for the financial year ending the 30 June 2021 as follows:

1. A Fixed Charge for all connected and vacant (not connected) land covering the net cost associated with the source of supply, administration, technical overhead, depreciation and finance costs for each scheme area be levied on those lands receiving a supply or to which a supply is deemed to be available
2. The basis of apportionment of this cost shall be the supply capacity made available to the connected premises, as a measure of the proportionate share of the capacity of the system utilised by the connected property, as listed in the table hereunder:

Meter Size	Capacity Factor
20mm	1.0
25mm	1.6
32mm and 40mm	2.5
50mm and 80mm	6.5
100mm	15.0
Vacant (not connected)	0.5

3. This direct correlation is varied as follows:
 - (a) All connections below 25mm are deemed to be the same capacity;
 - (b) Domestic properties which due to low pressure related matters only, require the installation of a larger than normal (20 mm) water meter, are to be charged the equivalent of a 20mm connection base charge;
 - (c) Domestic properties which due to low pressure related matters only, require the installation of an additional water meter, are to be charged the equivalent of a single 20mm connection base charge only;
 - (d) In the case of units as defined under the Body Corporate and Community Management Act 1997 where the complex has a main meter, and individual units do not have an individual meter, then the base water charge for each unit will be levied as if the unit had a 20mm service connected;

- (e) In the case where there are 2 or more lots and an improvement is constructed across a property boundary, provided that a connected access charge is being levied for one lot, then vacant charges will not apply to the other vacant (land not connected to the water system) lot;
- (f) In the case of properties defined as "Rural", except for properties connected to the Proston Rural Water Scheme, under Council's differential rating criteria where multiple services are connected a charge for each additional connection shall be 50% of a single 20mm base charge;
- (g) In the case of properties on the Proston Rural Supply Scheme an access charge for each connection will apply;
- (h) In the case where a specifically dedicated metered service connection is provided for fire-fighting capability a charge for each service shall be 50% of a single 20mm access charge.

6.24 WATER SUPPLY CONSUMPTION CHARGE METHODOLOGY 2020/2021

RESOLUTION 2020/28

Moved: Cr Roz Frohloff

Seconded: Cr Scott Henschen

That pursuant to Section 94 of the *Local Government Act 2009* and Section 99 of the *Local Government Regulation 2012* and on the basis of the principles laid down in Council's Revenue Statement, Council make and levy water utility consumption charges, for the supply of water services, as follows:

The following methodology be adopted to determine water consumption charges for water consumed during the financial year ending the 30 June 2021:

1. In respect of Water Supply Schemes of Blackbutt, Boondooma Dam, Kingaroy, Kumbia, Murgon, Nanango, Proston, Tingoor, Wondai, Wooroolin and Yallakool:
 - (a) Council operate a three (3) tier banding system based on the volume of water used in kilolitres (000's of litres) and the capacity of the meter connected.
 - (b) For connections greater than 20mm, the steps are increased proportionally with the capacity factor for each meter size.
 - (c) The tiers or steps that apply to all size connections are shown in the table below.

Meter Size	Capacity Factor	Step 1 KL	Step 2 KL	Step 3 KL
20mm	1.0	0 - 125	126 - 250	>250
25mm	1.6	0 - 200	201 - 400	>400
32mm and 40mm	2.5	0 - 313	314 - 625	>625
50mm and 80mm	6.5	0 - 813	814 - 1,625	>1,625
100mm	15.0	0 - 1,875	1,876 - 3,750	>3,750
High Volume Commercial >200,000KL/pa	N/A	0 - 20,000	>20,000	N/A

2. In respect of Proston Rural Water Supply Scheme:

(a) A flat charge to apply for all water consumed.
