

Bitumen Reseal Program – 2021/22

Council undertakes periodic bitumen resealing works on our sealed road network to rejuvenate and extend the life of the roads and streets. The bitumen resealing process consists of spraying a thin film of bitumen across the road surface, and then adding small stones on top of the bitumen film. This forms a durable waterproof dust free layer on top of the road, can improve the skid resistance of the road surface, and reduces the occurrence of potholes and cracks forming. Typically, the useful life of a bitumen seal is 10-15 years, after which time bitumen resealing should be undertaken.

Road Name	Locality
Brooklands Pimpimbudgee Road	Brooklands
Cherbourg Road	Murgon
Cloyna West Road	Cloyna
Cushnie Road	Cushnie
Dangore Mountain Road	Dangore
Eisenmengers Road	Sunny Nook
Ironpot Road	Ironpot
Jorgensens Road	Greenview
Mondure Road	Mondure
Moonya Street	Kingaroy
Reinkes Road	Cushnie
Somerset Street	Kingaroy
Springs Road	Chelmsford
Alford Street (Kingaroy Street to Short Street)	Kingaroy
