Declared Sewerage Service Area Boundary Extents

N-G1	N-P1-1	N-P4-1
N-G2	N-P2-1	N-P5-1
N-G3	N-P3-1	N-P6-1

Future Expansion	Lot Boundary
------------------	--------------

PIA Boundary	Sewer Maintenance Hole
Sewer Rising Main	Sewer Gravity Main

Date
June 2021

Version
4.0

Important
This map was produced on the GEOCENTRIC DATUM OF AUSTRALIA 1994 (GDA94), which has superseded the Australian Geodetic Datum of 1984 (AGD66/84). Heights are referenced to the Australia Height Datum (AHD) heights.
For most practical purposes GDA94 coordinates and satellite derived (GPS) coordinates based on the World Geodetic Datum 1984 (WGS84) are the same.

True North, Grid North and Magnetic North are shown diagrammatically for the centre of the Hervey Bay Local Government Area. Magnetic North is correct for 2001 moving easterly by 0.04° in about five years.

Notes:
1- All lots within the shaded Declared Service Area shall be able to be connected to the Declared Sewerage Network Area.
2- Future expansion areas relate to lots within the Declared Service Area that do not currently have reticulation infrastructure available to allow for direct connection of all existing or potential future subdivided lots to the water supply network, or where future development is proposed that will require infrastructure installed as part of operational works approval conditions. Individual lots may be connected if they are located within the PIA boundary and if water supply infrastructure is available within 30m of the lot boundary, otherwise the water supply infrastructure will need to be extended at the property owners expense to provide the connection.
3-Priority Infrastructure Area (PIA) boundary identifies the area prioritised for the provision of trunk infrastructure to service the existing and assumed future urban development
