<input type="checkbox"/> Water and Sewer Connection		<input type="checkbox"/> Water Connection	
		<input type="checkbox"/> Sewer Connection	
Water connection details		Sewer connection details	
<input type="checkbox"/> 20 mm (standard) \$1,979.50		<input type="checkbox"/> 100mm \$652.00	
<input type="checkbox"/> 25 mm \$2,270.00		<input type="checkbox"/> 150mm As Quoted	
<input type="checkbox"/> 32 mm \$2,963.00		<div style="text-align: center; background-color: #d3d3d3; padding: 5px;">Information Notes – Water & Sewer</div> <p>1. Newly Developed Areas - Service infrastructure may have already been developed for these areas and only a meter may be required for install. Council will identify this as part of the application process and advice of the applicable fee.</p> <p>2. Older Developed Areas - schematic drawings can be provided to identify best location of the service. If no schematics is provided Council will install as per WBBUWU D&C Code</p> <p>3. Fire Service Applications - where backflow prevention devices are to be install, the provision of the backflow device is to be provided by the property owner. Council will typically install the service pipework from the main to the property boundary as per provided plans, and finish at isolation valve above ground level. Flow meter arrangement is to be agreed and approved by Council.</p> <p>For further information please refer to Water and Sewer Connection Fact sheet</p>
