Revenue Statement 2025/2026

Introduction

Sections 169 and 172 of the Local Government Regulation 2012 require a local government to prepare a revenue statement each financial year. The revenue statement must state:

- (a) if the local government levies differential general rates:
 - (i) The rating categories for rateable land in the local government area; and
 - (ii) A description of each rating category; and
- if the local government levies special rates or charges for a joint government activity, a summary of the terms of the joint government activity; and
- (c) if the local government fixes a cost-recovery fee, the criteria used to decide the amount of the cost-recovery fee; and
- (d) if the local government conducts a business activity on a commercial basis, the criteria used to decide the amount of the charges for the activity's goods and services.

The revenue statement for a financial year must include the following information for the financial year:

- (a) an outline and explanation of the measures that the local government has adopted for raising revenue, including an outline and explanation of:
 - (i) the rates and charges to be levied in the financial year; and
 - (ii) the concessions for rates and charges to be granted in the financial year;
- (b) whether the local government has made a resolution limiting an increase of rates and charges.

Generally, this statement does not deal with specific dollar amounts. The Statement deals with the reasoning applied by Council in fixing rates and charges and if applicable, how the Council applies user pays principles to utility and general charges.

The revenue measures adopted are determined at the budget meeting and are based on the Council's Revenue Policy.

Revenue Raising Matters Adopted in the Budget Concerning the Making and Levying of Rates and Charges

Rates and Charges

1. General Principle

The general principle adopted by Council in determining rates and charges shall be that wherever possible, charges shall relate directly to the services provided, e.g. Water Supply, Wastewater Collection, Waste Collection. Costs which are not able to be recovered by cost recovery fees, business activity fees or utility charges shall be met by the levying of a general rate as hereinafter described.

It is therefore evident from this Revenue Statement that Council will use a combination of specific user charges, separate charges, special charges, and differential general rates, as a means of spreading the rating burden in the most equitable and rational way possible.

Revenue Statement 2025/2026

2. Differential General Rates

(a) Reason

In determining its general rating strategies, the Council recognises that:

- the valuation of the South Burnett Regional Council area which became effective from 1 July 2025 would lead to rating inequities and a distortion of the relativities in the amount of rates paid in the various parts of the local government area if only one general rate were adopted;
- the level of services provided to that land and the cost of providing services compared to the rate burden that would apply under a single general rate; and
- the differing levels of demand that some land uses place on the services which Council is required to provide.

Having regard to the above matters, and pursuant to Section 94 of the Local Government Act 2009 and Section 80 of the Local Government Regulation 2012, it is considered that differential rating should form the basis of Council's general revenue raising.

For differential rating purposes it is proposed that rateable lands be divided into broad categories, these categories are:

- Residential Lands
- Commercial Lands
- Industrial Lands
- Rural Lands
- Other Lands

The commercial, industrial, and residential categories are further subdivided to reflect differing classes of land within those broader categories. This will allow a more equitable distribution of the cost of operations given that the unimproved value of the land does not fully reflect operational demands and service levels in various sectors of the community.

Pursuant to Section 81 of the Local Government Regulation 2012, all rateable lands contained in the South Burnett Regional Council have been categorised into one of the following categories:

CategoryDifferential Category1Residential - KingaroyDescriptionIdentification

All properties in this category are located within the Kingaroy Urban Locality and are used solely for residential purposes, or if vacant land, is zoned for residential use under the Planning Schemes relevant to South Burnett Regional Council, and intended for use for residential purposes only. Urban Localities are defined in "Individual Urban Locality" maps series. Council will be guided by the Department of Resources land use codes between 1 and 9 (excluding 03) and land use code 72 when determining the properties that fit into this category.

- 1. This category will cover all land within the Kingaroy Urban locality, where the dominant purpose for which that land is used, or intended for use, is a residential purpose and not included in any other category.
- 2.That such land in this category will in the main be owner occupied and where tenanted, the revenue earned is limited to rental income solely.
- 3.That in the case of land on which there is erected a single unit domestic dwelling to the extent that the dominant use of the land is residential, it will fall into this category regardless of the zoning of the land.
- 4.Land with land use codes 01, 02, 04, 05, 06, 07, 08, 09 and 72 or as otherwise identified by the CEO.

Category Differential Category 213 **Extractive B** Description Identification All properties in this category are used for extractive

industry purposes, and include:

- (a)Operational Gravel Pits; and
- (b)Extractive operations such as quarries and mining operations with an employee base of between 6 and 50 workers (employees and/or contractors) and/or extraction volumes of less than 1 million tonnes per annum
- (c)Council will be guided by the Department of Resources land use code 40 when determining the properties that fit into this category.
- 1. This category will cover all land used for the purpose of extracting resources from the ground and include: (a)Operational Gravel Pits; and
 - (b)Extractive operations such as quarries and mining operations with an employee base of between 6 and 50 workers (employees and/or contractors) and/or extraction volumes of less than 1 million tonnes per annum.
- 2. Land with land use code 40 or as otherwise identified by the CEO.

Category Differential Category 414 **Coal Mine** Description Identification

All properties in this category are used for the purpose of an Integrated Coal Mining operation with more than 300 workers (employees and/or contractors) and/or production greater than 2 million tonnes per year.

1. This category will cover all land used for the purpose of an Integrated Coal Mining operation, with operations that have greater than 300 workers (employees and/or contractors) and/or extraction volumes of greater than 2 million tonnes per year.

A Coal Mine is defined as land that is the subject of a coal mining lease (issued pursuant to the Mineral Resources Act 1989) or other form of tenure that was used, is used, or intended to be used:

 as a coal mine (or for purposes ancillary or associated with coal mining such as, for example, washing down, stockpiling, haulage, water storage and rehabilitation); or in conjunction with other land (the subject of a coal mining lease) as part of an integrated coal mining operation.

An integrated coal mining operation is defined as land contained in more than one coal mining lease (issued pursuant to the Mineral Resources Act 1989) or other form of tenure which land was used, is used, or intended to be used in an integrated manner for the purposes of coal mining or purposes ancillary or associated with coal mining such as, for example, washing down, stockpiling, haulage, water storage and rehabilitation.

7	Other
Description	Identification
Any land that cannot be included in any other category.	As identified by the CEO.

(b) Basis on which Amounts Calculated

General Rates are principally allocated to rateable properties in the regional area based on the Unimproved Value (UV) of the land under the *Valuation of Land Act*, as supplied by the Land and Property Division of the Department of Resources. General Rates are used to fund the general operations of Council after allowing for the income from all other rates and charges and grants and subsidies. The term "rateable land" is defined by *Section 93(2)* of the *Local Government Act 2009*.

3. Minimum General Rate

(a) Reason

The Council recognises that all parcels of land will receive a benefit from services provided and that, in some instances; the levying of a rate based on the valuation will result in some lands not contributing to the cost of such services in proportion to the benefit received.

(b) Basis on which Minimum General Rate Calculated

In accordance with Section 77 of the Local Government Regulation 2012, minimum general rates will be determined in each year based on the level of services provided in the budget for that year.

4. Averaging of Land Values Over Three (3) Years

(a) Reason

The Council recognises that as a result of the land revaluation that recently took place with an effective date of 1 July 2025, some property owners faced large increases in General Rates, as their land valuation increased significantly higher than the average. In order to minimise the impact of significant valuation increases for these property owners, Council decided to utilise the averaging tool set out in *Chapter 4, Part 3* of the *Local Government Regulation 2012*. The 2025/2026 financial year will be the first year of the three (3) year averaging cycle.

(b) Basis on which Averaging of Land Values is Calculated

In accordance with Sections 74 and 76 of the Local Government Regulation 2012, differential general rates will be calculated based on a three (3) year averaged valuation.

For properties that do not have three (3) valuations on which to base an average, a three (3) year averaging number will apply in accordance with *Section 76* of the *Local Government Regulation 2012*.

5. Special Charges

5.1 Special Charge – Rural Fire Levy

(a) Reason

In accordance with the *Fire and Emergency Services Act 1990* and the *Fire and Emergency Services Regulation 2011*, allowing Local Governments to make and levy a charge on all parcels of rateable land serviced by a Rural Fire Brigade, the Council decided to impose such a charge on each rateable assessment, on all rateable land not situated in an urban fire brigade area, as defined by the Queensland Fire and Emergency Service.

(b) Basis on which Special Rural Fire Charge Calculated

In accordance with Section 94 of the Local Government Act 2009 and Section 94 of the Local Government Regulation 2012 and Section 128A of the Fire and Emergency Services Act 1990,

Revenue Statement 2025/2026 Page 15 of 39

Council will make and levy a special charge of \$25 per rateable assessment, on all rateable land within the region, other than rateable land that is liable to pay an urban fire district levy (pursuant to Section 107 of the Fire and Emergency Services Act 1990), to fund the ongoing provision and maintenance of rural fire-fighting equipment for the rural fire brigades that operate throughout the rural areas of the region.

The overall plan for the Rural Fire Levy is as follows:

- the rateable land to which the plan applies is all rateable land within the region, other than
 rateable land that is liable to pay an urban district fire levy (pursuant to Section 107 of the Fire
 and Emergency Services Act 1990).
- the service, facility, or activity for which the plan is made is the ongoing provision and maintenance of rural fire-fighting equipment for the rural fire brigades that operate throughout the rural areas of the region.
- the time for implementing the overall plan is one (1) year commencing 1 July 2025 and ending 30 June 2026.
- the estimated cost of implementing the overall plan is \$216,050.
- the level of contribution each brigade receives will be decided by the Local Area Rural Fire Services Committee.

The Council is of the opinion that the rateable land to be levied with the special charge specially benefits from the fire emergency response capability that is provided by the rural fire brigades, which capability would be substantially diminished if the rural fire brigades did not receive the funding provided to them by Council as a direct consequence of the levying of the special charge.

5.2 Special Charge – Kingaroy Quarry Supplies – Wattlegrove Road

(a) Reason

In accordance with Section 92(3) of the Local Government Act 2009 and Section 94 of the Local Government Regulation 2012, the Council has determined that a special charge for a road maintenance, road upgrading and road replacement program will be levied on land described as Lot 2 on SP 341268 (previously Lot 459 FY1925) relating to the extractive industry operation located at 1304 Wattlegrove Road, Wattle Grove.

The proceeds of the special charge will be used to implement a road program for Wattlegrove Road, Minmore Road, Deep Creek Road and River Road as described in the Overall Plan which is necessary to mitigate and manage the impacts on those roads caused by the use of this property for extractive industry purposes.

Extractive industry operations cause a significant increase in heavy vehicle traffic utilising Council's local road network, which accelerates the deterioration of those roads at a rate far greater than would have been the case for ordinary traffic use. This land use specially contributes to the need for Council to expend considerable funds in order to maintain service and maintenance standards to that road network.

The Overall Plan represents Council's response to addressing these needs in a financially responsible way as it relates specifically to Wattlegrove Road, Minmore Road, Deep Creek Road and River Road and the Extractive Industry Properties.

(b) Basis on which Road Maintenance Charges Calculated

In accordance with Section 94 of the Local Government Regulation 2012, the special charge for Wattlegrove Road has been established to recover the annualised cost to maintain, upgrade and replace the haulage roads from Crawford's Quarry along Wattlegrove Road, Minmore Road, Deep Creek Road and River Road to the Bunya Highway. The total estimated cost of a 20-year program to undertake these works is \$206,861.20 or \$25,744.44 annually. A tonnage of 30,000 tonnes has been applied for the 2025/2026 financial year, equating to \$25,744.44 annually.

Consultation between Infrastructure and Finance and Liveability departments of Council has occurred in order to develop this plan. Additionally, consultation has occurred between the guarry

Page 16 of 39

Revenue Statement 2025/2026

property owners and operators of the Extractive Industry Properties. The landowners are aware of the special rates charge, as in this instant they are also the applicant (Crawfords).

The extractive industry approval was issued on 20 March 2019.

It is intended that during the period the Overall Plan remains current, Council will also develop and adopt annual implementation plans every financial year in support of this Overall Plan as required by the *Local Government Regulation 2012*.

It is anticipated the Road Program will commence on 1 July 2019 and continue to 30 June 2039. Council proposes to levy special rates and charges on the Extractive Industry Properties at the budget meeting for the 2025/2026 financial year.

Under this Overall Plan, the levying of special rates and charges on the Extractive Industry Properties will occur over an estimated 20-year period. Accordingly, the estimated time for carrying out the Overall Plan is 20 years.

It is intended that Council will adopt an annual implementation plan for each of the years the Overall Plan will be in effect in accordance with the *Local Government Regulation 2012*.

An annual implementation plan for a financial year is a document setting out the actions or processes that are to be carried out in the financial year for the service facility or activity to which the special rates or charges apply.

Council may review this Overall Plan from time to time and may, by resolution, amend this Overall Plan or an annual implementation plan.

5.3 Special Charge - Road Maintenance Tim Dwyer Rd Quarry

(a) Reason

In accordance with Section 92(3) of the Local Government Act 2009 and Section 94 of the Local Government Regulation 2012, the Council has determined that a special charge for a road maintenance, road upgrading, and road replacement program will be levied on land described as Lot 169 CSH697 relating to the extractive industry operation located at 79 Tim Dwyer Road, East Nanango.

The proceeds of the special charge will be used to implement a road program for Tim Dwyer Road, Greenwood Creek Road, Old Esk North Road, South Street and Arthur Street East as described in the Overall Plan which is necessary to mitigate and manage the impacts on those roads caused by the use of this property for extractive industry purposes.

Extractive industry operations cause a significant increase in heavy vehicle traffic utilising Council's local road network, which accelerates the deterioration of those roads at a rate far greater than would have been the case for ordinary traffic use. This land use specially contributes to the need for Council to expend considerable funds in order to maintain service and maintenance standards to that road network.

The Overall Plan represents Council's response to addressing these needs in a financially responsible way as it relates specifically to Tim Dwyer Road, Greenwood Creek Road, Old Esk North Road, South Street and Arthur Street East and the Extractive Industry Properties.

(b) Basis on which Road Maintenance Charges Calculated

In accordance with Section 94 of the Local Government Regulation 2012, the special charge for Tim Dwyer Road has been established to recover the annualised cost to maintain, upgrade and replace the haulage roads from Cassidy's Quarry along Tim Dwyer Road, Greenwood Creek Road, Old Esk North Road, South Street and Arthur Street East to the D'Aguilar Highway. The total estimated cost of a 20-year program to undertake these works is \$200,708.56 or \$3,319.09 annually. To be levied upon commencement of significant operations.

Consultation between Infrastructure and Finance and Liveability departments of Council has occurred in order to develop this plan. Additionally, consultation has occurred between the quarry

Revenue Statement 2025/2026

Page 17 of 39

property owners and operators of the Extractive Industry Properties. The landowners are aware of the special rates charge, as in this instant they are also the applicant (David Cassidy).

The extractive industry approval was issued on 21 February 2018.

It is intended that during the period the Overall Plan remains current, Council will also develop and adopt annual implementation plans every financial year in support of this Overall Plan as required by the *Local Government Regulation 2012*.

It is anticipated the Road Program will commence on 1 July 2019 and continue to 30 June 2039. As the quarry has not yet commenced significant operations, Council proposes that no special rates and charges be levied on the Extractive Industry Properties at the Budget Meeting for the 2025/2026 financial year.

Under this Overall Plan, the levying of special rates and charges on the Extractive Industry Properties will occur over an estimated 20-year period. Accordingly, the estimated time for carrying out the Overall Plan is 20 years.

It is intended that Council will adopt an annual implementation plan for each of the years the Overall Plan will be in effect in accordance with the *Local Government Regulation 2012*.

An annual implementation plan for a financial year is a document setting out the actions or processes that are to be carried out in the financial year for the service facility or activity to which the special rates or charges apply.

Council may review this Overall Plan from time to time and may by resolution, amend this Overall Plan or an annual implementation plan.

5.4 Special Charge - Gordonbrook Sand Quarry - Wilsons Road

(a) Reason

In accordance with Section 92(3) of the Local Government Act 2009 and Section 94 of the Local Government Regulation 2012, the Council has determined that a special charge for a road maintenance, road upgrading, and road replacement program will be levied on land described as Lot 49 BO544 relating to the extractive industry operation located at Wilsons Road, Gordonbrook.

The proceeds of the special charge will be used to implement a road program for Wilsons Road as described in the Overall Plan which is necessary to mitigate and manage the impacts on those roads caused by the use of this property for extractive industry purposes.

Extractive industry operations cause a significant increase in heavy vehicle traffic utilising Council's local road network which accelerates the deterioration of those roads at a rate far greater than would have been the case for ordinary traffic use. This land use specially contributes to the need for Council to expend considerable funds in order to maintain service and maintenance standards to that road network

The Overall Plan represents Council's response to addressing these needs in a financially responsible way as it relates specifically to Wilsons Road and the Extractive Industry Properties.

(b) Basis on which Road Maintenance Charges Calculated

In accordance with Section 94 of the Local Government Regulation 2012, the special charge for Wilsons Road has been established to recover the annualised cost to maintain, upgrade and replace the haulage road from Johnson's Quarry along Wilsons Road to the Memerambi-Gordonbrook Road. The total estimated cost of a 20-year program to undertake these works is \$177,075.31 or \$6,938.00 annually. A tonnage of 25,000 tonnes has been applied for the 2025/2026 financial year, equating to \$6,938.00 annually.

Consultation between Infrastructure and Finance and Liveability departments of Council has occurred in order to develop this plan. Additionally, consultation has occurred between the quarry property owners and operators of the Extractive Industry Properties.

Revenue Statement 2025/2026

Page 18 of 39

The extractive industry approval was issued on 10 October 2018.

It is intended that during the period the Overall Plan remains current, Council will also develop and adopt annual implementation plans every financial year in support of this Overall Plan as required by the *Local Government Regulation 2012*.

It is anticipated the Road Program will commence on 1 July 2019 and continue to 30 June 2039. Council proposes to levy special rates and charges on the Extractive Industry Properties at the budget meeting for the 2025/2026 financial year.

Under this Overall Plan, the levying of special rates and charges on the Extractive Industry Properties will occur over an estimated 20-year period. Accordingly, the estimated time for carrying out the Overall Plan is 20 years.

It is intended that Council will adopt an annual implementation plan for each of the years the Overall Plan will be in effect in accordance with the *Local Government Regulation 2012*.

An annual implementation plan for a financial year is a document setting out the actions or processes that are to be carried out in the financial year for the service facility or activity to which the special rates or charges apply.

Council may review this Overall Plan from time to time and may by resolution, amend this Overall Plan or an annual implementation plan.

5.5 Special Charge - Road Maintenance Burra Burri Road Quarry

(a) Reason

In accordance with Section 92(3) of the Local Government Act 2009 and Section 94 of the Local Government Regulation 2012, the Council has determined that a special charge for a road maintenance, road upgrading, and road replacement program will be levied on land described as Lot 67 BO576 relating to the extractive industry operation located at 1229 Burra Burri Road, Durong.

The proceeds of the special charge will be used to implement a road program for Burra Burri Road and Aberdeen Avenue as described in the Overall Plan which is necessary to mitigate and manage the impacts on those roads caused by the use of this property for extractive industry purposes.

Extractive industry operations cause a significant increase in heavy vehicle traffic utilising Council's local road network which accelerates the deterioration of those roads at a rate far greater than would have been the case for ordinary traffic use. This land use specially contributes to the need for Council to expend considerable funds in order to maintain service and maintenance standards to that road network.

The Overall Plan represents Council's response to addressing these needs in a financially responsible way as it relates specifically to Burra Burri Road and Aberdeen Avenue and the Extractive Industry Properties.

(b) Basis on which Road Maintenance Charges Calculated

In accordance with Section 94 of the Local Government Regulation 2012, the special charge for Burra Burri Road has been established to recover the annualised cost to maintain, upgrade and replace the haulage road from Boodles Quarry along Burra Burri Road and Aberdeen Avenue to the Chinchilla-Wondai Road. The total estimated cost of a 20-year program to undertake these works is \$213,935.49 or \$9,412.67 annually. A tonnage of 10,000 tonnes has been applied for the 2025/2026 financial year, equating to \$9,412.67 annually.

Consultation between Infrastructure and Finance and Liveability departments of Council has occurred in order to develop this plan. Additionally, consultation has occurred between the quarry property owners and operators of the Extractive Industry Properties.

The extractive industry approval was issued on 20 March 2019.

It is intended that during the period the Overall Plan remains current, Council will also develop and

Revenue Statement 2025/2026

Page 19 of 39

adopt annual implementation plans every financial year in support of this Overall Plan as required by the *Local Government Regulation 2012*.

It is anticipated the Road Program will commence on 1 July 2019 and continue to 30 June 2039. Council proposes to levy special rates and charges on the Extractive Industry Properties at the budget meeting for the 2025/2026 financial year.

Under this Overall Plan, the levying of special rates and charges on the Extractive Industry Properties will occur over an estimated 20-year period. Accordingly, the estimated time for carrying out the Overall Plan is 20 years.

It is intended that Council will adopt an annual implementation plan for each of the years the Overall Plan will be in effect in accordance with the *Local Government Regulation 2012*.

An annual implementation plan for a financial year is a document setting out the actions or processes that are to be carried out in the financial year for the service facility or activity to which the special rates or charges apply.

Council may review this Overall Plan from time to time and may by resolution, amend this Overall Plan or an annual implementation plan.

5.6 Special Charge - Road Maintenance Manar Road Quarry

(a) Reason

In accordance with Section 92(3) of the Local Government Act 2009 and Section 94 of the Local Government Regulation 2012, the Council has determined that a special charge for a road maintenance, road upgrading, and road replacement program will be levied on land described as Lot 7 BO179 relating to the extractive industry operation located at 1551 Manar Road, Boondooma.

The proceeds of the special charge will be used to implement a road program for Manar Road as described in the Overall Plan which is necessary to mitigate and manage the impacts on those roads caused by the use of this property for extractive industry purposes.

Extractive industry operations cause a significant increase in heavy vehicle traffic utilising Council's local road network which accelerates the deterioration of those roads at a rate far greater than would have been the case for ordinary traffic use. This land use specially contributes to the need for Council to expend considerable funds in order to maintain service and maintenance standards to that road network.

The Overall Plan represents Council's response to addressing these needs in a financially responsible way as it relates specifically to Manar Road and the Extractive Industry Properties.

(b) Basis on which Road Maintenance Charges Calculated

In accordance with Section 94 of the Local Government Regulation 2012, the special charge for Manar Road has been established to recover the annualised cost to maintain, upgrade and replace the haulage road from Sabre's Quarry along Manar Road to the Mundubbera-Durong Road. The total estimated cost of a 20-year program to undertake these works is \$661,331.03 or \$6,431.09 annually. To be levied upon commencement of significant operations.

Consultation between Infrastructure and Finance and Liveability departments of Council has occurred in order to develop this plan. Additionally, consultation has occurred between the quarry property owners and operators of the Extractive Industry Properties. The landowners are aware of the special rates charge, as in this instant they are also the applicant (Sabre).

The extractive industry approval was issued on 18 December 2018.

It is intended that during the period the Overall Plan remains current, Council will also develop and adopt annual implementation plans every financial year in support of this Overall Plan as required by the *Local Government Regulation 2012*.

It is anticipated the Road Program will commence on 1 July 2019 and continue to 30 June 2039. As

Revenue Statement 2025/2026

Page 20 of 39

the quarry has not yet commenced significant operations, Council proposes that no special rates and charges be levied on the Extractive Industry Properties at the Budget Meeting for the 2025/2026 financial year.

Under this Overall Plan, the levying of special rates and charges on the Extractive Industry Properties will occur over an estimated 20-year period. Accordingly, the estimated time for carrying out the Overall Plan is 20 years.

It is intended that Council will adopt an annual implementation plan for each of the years the Overall Plan will be in effect in accordance with the *Local Government Regulation 2012*.

An annual implementation plan for a financial year is a document setting out the actions or processes that are to be carried out in the financial year for the service facility or activity to which the special rates or charges apply.

Council may review this Overall Plan from time to time and may by resolution, amend this Overall Plan or an annual implementation plan.

6. Separate Rates or Charges

6.1 Separate Charge – Waste Management Levy

(a) Reason

In accordance with Section 94 of the Local Government Act 2009 and Chapter 4, Part 8 of the Local Government Regulation 2012, the Council has determined that a separate charge will be levied equally on all rateable lands in the Region to enable Council to fund issues specifically for the provision, improvement, and management of waste management facilities.

(b) Basis on which Waste Management Charge Calculated

Revenue raised from this charge will only be used to fund either all or part of the costs associated with provision, improvement, and management of waste management facilities. It is considered to be more appropriate to raise funds by a separate charge rather than from general funds to ensure the community is aware of the Council's commitment to the long-term appropriate management of waste. It also considers the benefit is shared equally by all parcels of land regardless of their value. Full particulars of the waste management initiatives funded by the levy are set out in Council's budget papers.

6.2 Separate Charge – Community Rescue and Evacuation Levy

(a) Reason

In accordance with Section 94 of the Local Government Act 2009 and Section 103 of the Local Government Regulation 2012, the Council has determined that a separate charge will be levied equally on all rateable lands in the Region to enable Council to provide funds for the purpose of sponsoring the aerial emergency rescue and evacuation transport providers that service the South Burnett Region.

(b) Basis on which Special Medical Evacuation Calculated

Revenue raised from this charge will only be used to fund sponsorship of the aerial emergency rescue and evacuation transport providers that service the South Burnett Region. In Council's opinion, it is more appropriate to raise funds by a separate charge rather than from general funds to ensure the community is aware of the Council's commitment to ensure ongoing support for this vital community service. It also considers the benefit is shared equally by all parcels of land regardless of their value.

7. Utility Charges

7.1 Wastewater Utility Charges

(a) Reason

Revenue Statement 2025/2026

Page 21 of 39

The Council operates separate wastewater and common effluent service areas schemes set out in Schedule A - Declared Sewerage Service Areas and determines that the net cost of providing wastewater services to lands, including operating and maintenance costs, capital costs and debt servicing charges will be fully funded by a charge on those lands receiving the service or to which the service is deemed to be available.

(b) Basis on which Wastewater Charges Calculated

Until otherwise determined by the Council the basis and principles of assessing charges to be levied under Section 94 of the Local Government Act 2009 and Section 99 of the Local Government Regulation 2012 for the purpose of defraying the interest and redemption charges to loan liability incurred by the Council for Wastewater services (including Common Effluent Disposal Systems) and the cost of operating and maintaining wastewater systems (including common effluent disposal) in the declared sewerage service areas set out in Schedule A – Declared Sewerage Service Areas shall in respect of all land and premises in the area, whether the land on which any structure, building or place is situated, is or is not rateable under the Local Government Act 2009, shall be as follows:

- In respect of all lands and premises which are connected with Council's Declared Sewerage service areas (including common effluent systems):
 - A charge to be fixed by the Council, for each pedestal connected to the wastewater system per building, other than extra pedestals installed in a private residence for the sole use of the occupier and their family.
- (ii) In respect of each allotment of Vacant Land (land not connected to the wastewater system) rateable under the Local Government Act 2009 situated within the declared sewerage service areas:
 - A charge to be fixed by the Council.
- (iii) Where any premises not connected to the Council's wastewater system, become connected during the year, the charges under Clause (i) shall become operative from the date of connection, with proportionate rebate from that date, of those made under Clause (ii).

7.2 Waste Management Utility Charges – Residential and Commercial

(a) Reason

Council determines that the net cost of providing waste management utility including operation and maintenance costs, capital costs and debt servicing costs will be funded by those lands receiving the service. Details of the areas receiving a waste service are set out in Schedule B.

(b) Basis on which Waste Management Utility Charges Calculated

Until otherwise determined by the Council the basis and principles of assessing charges to be levied under Section 94 of the Local Government Act 2009 and Section 99 of the Local Government Regulation 2012, for the purpose of defraying the cost of supplying waste management services (including the storage, collection and removal of general waste) on all lands and structures to which a waste management service is supplied or, in the case of rateable land which is occupied, made available by Council as defined in the schedule of designated waste collection areas set out in Schedule B and those lands and premises outside the designated waste areas where an optional cleansing service is requested shall be as follows:

Definition:

general waste	means:
	(a) waste other than regulated waste; and
	(b) any of the following:
	(i) commercial waste;
	(ii) domestic waste;
	(iii) recvclable waste.

- (i) In respect of all lands and premises contained within the designated waste collection area:
 - A charge to be fixed by the Council for each general waste service for the designated waste collection area.

Revenue Statement 2025/2026

Page 22 of 39

- (ii) In respect of all lands and premises outside the designated waste areas where an optional cleansing service is requested:
 - A charge to be fixed pursuant to section (i).
- (iii) The Bunya Mountains waste management utility charge is a separate utility charge levied in respect of:
 - (a) The complexity and difficulty of waste management service provision for the Bunya Mountains; and
 - (b) The collection of domestic waste from domestic premises situated in the Bunya Mountains and the collection of commercial waste from commercial premises situated in the Bunya Mountains in circumstances where the domestic waste and commercial waste is deposited in, and collected from, bulk waste containers which are set aside for collection of domestic waste and commercial waste at the Bunya Mountains.
 - A charge to be fixed pursuant to section (i).
- (iv) In respect of all lands and premises either contained within a designated waste area or outside a designated waste area where garbage and waste are removed other than in accordance with Clause (i) and (ii) (i.e. Commercial Waste Collection).
- A charge fixed pursuant to section (i) for each equivalent 240 litre container provided.

7.3 Water Supply Charges

(a) Reason

The Council operates separate water supply service areas set out in Schedule C – Declared Water Supply Service Areas and determines that the net cost of providing a water supply including operation and maintenance costs, capital costs and debt servicing costs will be fully funded by charges on those lands receiving a supply or to which a supply is deemed to be available.

(b) Basis on which Water Supply Charges Calculated

(i) <u>Access Charge</u>: In accordance with Section 94 of the Local Government Act 2009 and Section 99 of the Local Government Regulation 2012, the costs of administration, costs associated with the source of supply and depreciation will be funded by a fixed charge on those lands receiving the service or to which the service is deemed to be available in each declared water supply service area.

Council believes that it is logical and equitable for all users to contribute to the fixed costs of the water supply operation. The basis of apportionment of this cost shall be the supply capacity made available to the connected premises, as a measure of the proportionate share of the capacity of the system utilised by the connected property.

Meter Size	Capacity Factor	
20mm	1.0	
25mm	1.6	
32mm and 40mm	2.5	
50mm and 80mm	6.5	
100mm	15.0	
Vacant (not connected)	0.5	

This direct correlation is varied as follows:

- (a) All connections below 25mm are deemed to be the same capacity;
- (b) Domestic properties which due to low pressure related matters only, require the installation of a larger than normal (20 mm) water meter, are to be charged the equivalent of a 20mm connection base charge;
- (c) Domestic properties which due to low pressure related matters only, require the

Revenue Statement 2025/2026

Page 23 of 39

- installation of an additional water meter, are to be charged the equivalent of a single 20mm connection base charge only;
- (d) In the case of units as defined under the Body Corporate and Community Management Act 1997 where the complex has a main meter, and individual units do not have an individual meter, then the base water charge for each unit will be levied as if the unit had a 20mm service connected;
- (e) In the case where there are two (2) or more lots and an improvement is constructed across a property boundary, provided that a connected access charge is being levied for one (1) lot, then vacant charges will not apply to the other vacant (land not connected to the water system) lot;
- (f) In the case of properties defined as "Rural" except for properties connected to the Proston Rural Water Scheme under Council's differential rating criteria where multiple services are connected a charge for each additional connection shall be 50% of a single 20mm base charge;
- (g) In the case of properties on the Proston Rural Supply Scheme an access charge for each connection will apply; and
- (h) In the case where a specifically dedicated service connection is provided for fire-fighting capability a charge for each service shall be 50% of a single 20mm access charge.
- (ii) <u>Usage Charge</u>: In Accordance with Section 92(4) of the Local Government Act 2009 and Chapter 4, Part 7 of the Local Government Regulation 2012, the cost of reticulation of water supply will be funded by a per kilolitre charge for every kilolitre of water used as measured by a meter. Meters shall be read as near as practicable to June 30 and December 31 each year. Water Consumption charges will be included on each Half Yearly Rate Notice.

Properties not connected to the Proston Rural Water Supply Scheme will be split into separate tariffs - based on their Differential Rate Category. Residential Tariffs are comprised of Residential (1, 201, 203, 301, 401), Rural Residential (900, 910), Multi-units (100, 101) and Village (3, 4) Rate Categories per the Revenue Statement.

Commercial Tariffs are comprised of Commercial (2, 202, 204, 302, 402, 600, 700), Shopping Centre (9,10,99), Industrial (8, 208, 209, 308, 408), Extractive (211, 212, 213), Coal Mine (414), Power Generation (215, 219, 220, 221, 222, 223, 224, 225, 226), Rural Land – Primary Production (6), Piggery (611, 612, 613, 614), Cattle Feedlots (601, 602, 603, 604), Water Pumping and Storage (419), Heavy Industry (508), and Other (7) Rate Categories per the Revenue Statement.

This charge for all schemes excluding Proston Rural Water Supply Scheme is based on a tier system, calculated on the volume of water used in kilolitres (1000's of litres) each six (6) months. The step or tier system rewards households with low water usage and penalises households with high water usage. Council believes that the higher consumption charge for higher steps will be a significant incentive for residents to conserve water.

The step or tier system will also provide commercial operations that use significant volumes of water with a slight reduction in consumption charges compared to the top two (2) tiers for residential tariffs.

In the case of High-Volume Business/Commercial Users who consume >200,000 kilolitres of water per annum, Council believes that a modified methodology is more appropriate than that applied to other business users. The standard business consumption charges per kilolitre will apply. However, there will be only two (2) tiers applied to this tariff, instead of three (3).

In the case of the water used by the Proston Rural Water Supply Service Area a flat per kilolitre charge for every kilolitre of water used as measured by a meter will apply.

The tiers or steps that apply to all categories and connection sizes are shown in the table below. The tiers or steps apply to each six (6) monthly water meter reading.

For connections greater than 20mm, the steps are increased proportionally with the capacity factor mentioned in (b) (i) above.

Revenue Statement 2025/2026

Page 24 of 39

Meter Size	Capacity Factor	Step 1	Step 2	Step 3
20mm	1.0	0 - 125	126 – 250	>250
25mm	1.6	0 - 200	201 – 400	>400
32mm and 40mm	2.5	0 – 313	314 – 625	>625
50mm and 80mm	6.5	0 – 813	814 – 1,625	>1,625
100mm	15.0	0 – 1,875	1,876 – 3,750	>3,750
High Volume Commercial >200,000KL/pa	N/A	0 - 20,000	>20,000	N/A

8. Discount and Other Benefits for Prompt Payment of Rates

(a) Reason

To encourage early payment of rates, Council will offer ratepayers a discount on payments received during the nominated discount period in accordance with Section 130 of the Local Government Regulation 2012.

For discount to be allowed, full payment of all rates, (including overdue rates), charges, interest, fees and levies appearing on the rate notice must be received by Council or approved agency by the close of business on or before the due date.

Property owners who have entered into a Deferred Payment Arrangement (Concession Agreement) approved by Council to pay off Memerambi Special Charges (Roadworks and Drainage) and have paid all necessary instalments (excluding future instalments not yet due for payment) in accordance with the Deferred Payment Arrangement will qualify for discount on general rates and utility charges but will not qualify for discount on the special charges.

This is conditional upon the full payment of all other rates (including overdue rates), charges, interest, fees and levies appearing on the rate notice being received by Council or approved agency by the close of business on or before the due date.

In the case of electronic payments, discount will be allowed if full payment as described above, is received, and recorded on Council's accounts on or before the due date.

The discount period will be a period of at least thirty (30) clear days commencing from the issue date shown on the rate notice and concluding on the due date shown on the rate notice.

(b) Basis on which Discount Calculated

For payments made during the discount period – a period of at least thirty (30) clear days commencing from the issue date shown on the rate notice and concluding on the due date shown on the rate notice.

Discount will apply to the following rates and charges:

- General Rates levied 10%
- Wastewater charge levied 10%
- Water access charge levied 10%
- Garbage and recycling charge levied 10%

However, discount does not apply to the following charges, which may appear on the rate notice:

- State Emergency Management Levy
- Rural Fire Brigade Levy
- Water Consumption charges
- Road Maintenance Charges

Revenue Statement 2025/2026

Page 25 of 39

- Community Rescue and Evacuation Levy
- Waste Management Levy
- Road & Drainage Works Memerambi Estate Levy
- Any property charge relating to the carrying out of works (e.g. Slashing/Grass cutting or eradication of noxious weeds)
- Legal costs incurred by Council in rate collection
- Interest charges on overdue rates

(c) Approval of Early Payment Discount for Late Payments

There are occasions when payment by the due date is not able to be achieved through circumstances beyond the control of the ratepayer. The *Local Government Regulation 2012* provides Council with the discretionary power to allow discount in such circumstances.

Payments Made After the Due Date

Discount may be allowed, if the full payment of the overdue rates and charges has been made or will be made within the period specified by Council and the applicant provides proof of any of the following:

- (a) Illness involving hospitalization and/or incapacitation of the ratepayer at or around the time of the rates being due for discount.
- (b) The death or major trauma (accident/life threatening illness/emergency operation) of the ratepayer and/or associated persons (spouse/children/parents) at or around the time of the rates being due for discount.
- (c) The loss of records resulting from factors beyond their control (fire/flood).
 Further, that Council is satisfied that the event is the cause of the applicants' failure to make full payment by the due date.

Late Payments Due to Postal Difficulties

Discount will be approved if the non-receipt of the rate notice or rate payment or late receipt of the payment by Council where the reason for such non-receipt or late payment is separately substantiated by:

- (a) Written concurrence of the applicable mail carrier that problems existed with the mail deliveries; or
- (b) Written evidence that a mail re-direction was current at that location at the time that the rate notice was issued, or when the rates were due for payment; or
- (c) The return of the rate notice to Council although correctly addressed; or
- (d) Other evidence that payment of the rates was made by the ratepayer at that time but did not reach Council due to circumstances beyond the control of the ratepayer. In such circumstances, Council will consider the past payment history of the ratepayer, and whether such circumstances have been claimed before; or
- (e) Where an administrative error occurred at the Department of Resources that resulted in the rate notice being incorrectly addressed by Council.

Discount will **NOT** be allowed if the circumstances above are:

- As a result of the failure of the ratepayer to ensure that Council was given the correct notification of the address for service of notices prior to the issue of the rate notice; or
- As a result of a change of ownership, where Council received notification of the change of ownership after the issue of the rate notice.

Administrative Errors

An extended discount period will be allowed if Council has failed to correctly issue the rate notice in sufficient time to permit the ratepayer to make payment before the expiration of the discount period.

Revenue Statement 2025/2026

Page 26 of 39

The extended discount period will be equivalent to that period provided to other ratepayers and will commence from the date of the replacement notice.

Other Errors

Where there is an apparent accidental short payment of the rates resulting from a miscalculation of the net amount due on the part of the ratepayer, arising from the payment of a number of rate notices at one time (i.e. Addition error) OR the tendering of an incorrect amount for a single rate notice (i.e. transposition error) THEN discount will be allowed in the following manner:

- a. Where the amount of the error is \$50 or less:
 Full discount will be allowed, and the underpaid amount will be treated as 'Arrears of Rates'.
- b. Where the amount of the error is more than \$50:
 The ratepayer will be advised in writing of the error and given 14 days to pay the shortfall. If the shortfall is paid by the extended due date, then full discount will be allowed.

The allowing of discount under these circumstances will **NOT** be allowed if any transposition error or addition error exceeds 20% of the total net rates payable on a single rate notice, or the number of rate notices paid at one time.

9. Interest on Overdue Rates

(a) Reason

The Council has determined that all rates and charges will be determined as overdue for the charging of interest if they remain unpaid after 60 days from the due date of the relevant rate notice. (i.e. 90 from the issue date of the relevant rate notice).

(b) Basis on which Interest Calculated

Interest will be charged on all overdue rates in accordance with Section 133 of the Local Government Regulation 2012. The interest shall be compound interest, calculated on daily rests. The interest rate shall be determined each year based on the monthly average yield of 90-day bank accepted bills as published by the Reserve Bank of Australia as at the end of March in the financial year immediately before the current financial year, plus 8%. For the 2025/2026 financial year, Council has decided to set the interest rate at 9.00% (1% + 8%).

10. Collection of Outstanding Rates and Charges

Council requires payment of rates and charges within the specified period and it is Council's policy to diligently pursue the collection of overdue rates and charges. However, Council will take into account individual circumstances or the financial hardships faced by relevant ratepayers.

To cater for this, Council has established balanced administrative processes that allow flexibility in ratepayer payment options including payment by regular instalments. At the same time, these processes include a variety of options, including legal action through a debt recovery specialist, that allow the effective recovery of overdue rates, depending on the level of resistance experienced. These processes are governed by Council's Rate Collection Policy and Financial Hardship Policy.

(a) Arrangements to Pay

Pursuant to Chapter 4, Part 10 of the Local Government Regulation 2012, arrangements to pay will be entered into where the ratepayer and Council agree that such arrangements will allow the outstanding rates and charges to be paid in full by the end of the current half year. Future levies will be considered when calculating the amount for the approved arrangement.

While a ratepayer maintains an arrangement to pay, Council will suspend all legal action, and will suspend all interest charges.

Council may also agree to enter into arrangements to pay where the outstanding rates and charges will not be paid in full by the end of the current half yearly period. These arrangements will be

Revenue Statement 2025/2026 Page 27 of 39

considered by Council on a case by case basis and may require the ratepayer to make an initial lump sum payment of up to 50% of the outstanding rates.

Where a ratepayer defaults on an arrangement to pay, in the first instance, Council will attempt to make contact with the ratepayer, and negotiate for the return of the arrangement to an "up to date" position.

If the ratepayer fails to rectify the arrangement, or repeatedly defaults on the arrangement, then the arrangement to pay will be cancelled, and the suspension on interest charges and legal action will be lifted. Additionally, Council will not enter into any further rate arrangements until such time as all outstanding rates and charges are paid in full.

11. Payment Methods

Council offers ratepayers a wide and varied range of payment methods to pay rates. This includes Cash, Cheque or Money Order; Credit and Debit Card via EFTPOS at Council's Administration Offices; Credit Card or Debit Card over the telephone or internet via BPAY, or payment by cash, cheque, Credit Card or Debit Card at any Australia Post outlet in Australia, or payment by Credit Card or Debit Card via Telephone or Internet via Australia Post Bill Pay.

Other additional payment options will be considered and implemented where appropriate.

11.1 Payments in Advance

Council does accept payments in advance – either the estimated amount of future rate levies or smaller amounts paid by instalments. Credit interest is not payable to ratepayers on any credit balances held.

11.2 Issue of Rate Notices

(a) Half Yearly Rate Notices

Council will issue separate rate notices (half yearly) for each six months of the year. The rate notice for the first six months of the financial year (July to December) will generally be issued in August each year. The rate notice for the second six months of the financial year (January to June) will be issued in February. Each half yearly notice will also include water consumption charges for the previous six-month period.

(b) Monthly Water Consumption Notices

For selected large water consumers, where the cumulative cost of water consumed for the regular six-month period would be prohibitive and cause undue hardship, Council will consider the monthly issue of rate notices for this purpose.

(c) Pro Rata/Supplementary Rate Notices

Council will issue Supplementary Rate Notices for adjustments and variations in rates and charges on an "as required" basis during the year.

In accordance with Section 92(4) of the Local Government Act 2009 and Chapter 4 Part 7 of the Local Government Regulation 2012, where the use made of particular land varies (e.g. vacant land has a building constructed, or an existing building is altered), utility charges will be amended as follows:

i. Waste Collection Services

Where the waste collection charge payable in respect of a particular premises is situated inside a designated waste collection area, then the new service, or alteration/reduction to an existing service, shall be charged (or refunded as the case may be) on a pro rata basis and become operative from the date of commencement/alteration to the service.

ii. Water Supply Services

In the case of a new service being connected to a property situated within a declared water

Page 28 of 39

Revenue Statement 2025/2026

area, the new service shall be charged on a pro rata basis and become operable from the date of installation of the service.

In the case of an alteration to an existing service to a property situated within a declared water supply service area, the addition/reduction of the service shall be charged on a pro rata basis and become operable from the date of installation/disconnection of the service.

In the case of land being subdivided (including Group Title) within a declared water supply service area, the water charge shall be charged on a pro rata basis and become operable from the date of the sales of the new lots.

In the case where there has been an identified problem with a water meter, the consumption charge shall be calculated on a pro rata basis according to the average daily consumption over the previous three (3) years, or for whatever period is applicable to the current owner if less than three (3) years. Otherwise, it will be at the discretion of the Chief Executive Officer or his delegate.

In the case there has been an undetected water leak, plumbing failure or actions outside of the control of the ratepayer, the amount of relief from payment of the measured water consumption charge will be calculated on a pro rata basis according to the average daily consumption over the previous three (3) years, or for whatever period is applicable to the owner if less than three (3) years. However, the amount of relief cannot be more than 50% of the difference between the average consumption and the consumption actually registered for the relevant period.

iii. Wastewater Services

In the case of a new building constructed on a property situated within a declared sewerage service area, the new service shall be charged on a pro rata basis and become operable from the date of connection of the service to the sewerage service area.

In the case of an alteration to an existing building on a property situated within a declared sewerage service area, the addition/reduction of the service shall be charged on a pro rata basis and become operable from the date of connection/disconnection of the service to the sewerage service area.

In the case of land being subdivided (including Group Title) within a declared sewerage service area, the wastewater charge shall be charged on a pro rata basis and become operable from the date of the sales of the new lots.

12. Cost Recovery Fees and Business Activity Fees

12.1 Cost Recovery Fees

Council imposes cost recovery fees for services and facilities supplied by it under the Local Government Act and Local Laws for things such as applications, approvals, consents, licenses, permission, registration, information given, admission to certain structures or places or inspection made

These Cost Recovery Fees are set at or below a level which is based as far and accurately as possible on the actual cost of providing the particular service to which the fee relates. All Cost Recovery Fees are listed in Council's Register of Fee and Charges.

12.2 Business Activity Fees

Council has the power to conduct business activities and make business activity fees for services and facilities it provides on this basis. Business activity fees are made where Council provides a service and the other party to the transaction can choose whether or not to avail itself of the service. Business activity fees are a class of charge, which are purely commercial in application and are subject to the Commonwealth's Goods and Services Tax.

Business activity fees include but are not confined to the following: rents, plant hire, private works and hire of facilities.

Revenue Statement 2025/2026

Page 29 of 39

13. Concessions on Rates and Charges

13.1 Pensioner Concession

It is Council's policy to provide assistance by way of a concession of rates to pensioners who meet the administrative guidelines for the Queensland Government pensioner rate subsidy scheme.

The Council concession is in addition to the State Government approved pensioner rate subsidy.

For 2025/2026, Council will match the State Government approved pensioner subsidy and provide a concession to approved pensioners:

- (a) A general concession of 20% of the rate to a maximum of \$200 per annum.
- (b) An additional concession of 50% of the waste recycling collection charge be allowed for eligible pensioners who pay for a recycling service
- (c) Eligibility will be based on the below criteria in accordance with Policy and Procedures for the Queensland Government Pensioner Rate Subsidy Scheme.
 - 1. The pensioner must hold an eligible Pensioner Concession Card or DVA Gold Card (for all conditions)
 - Property where the subsidy is applied for must be the pensioners principle place of residence
 - 3. The pensioner must be listed on the Certificate of Title of the property

This concession is granted pursuant to Section 96 of the Local Government Act 2009 and Sections 120, 121 and 122 of the Local Government Regulation 2012. The concession will be distributed equally across both of the Half Yearly Rate Notices issued.

In summary, applications for the Pensioner Concession are to be made on the appropriate application form. Approved Pension cards include a current Centre link Queensland Pensioner Concession Card; a Department of Veterans' Affairs Gold Card or a Department of Veterans' Affairs Pensioner Concession Card.

The dwelling for which the concession is claimed shall be the principal place of residence for the applicants. Where an eligible pensioner/s resides some or all of the time in a Nursing Home or with family due to ill health, the residence may be regarded as the principal place of residence, as long as it is not occupied on a paid tenancy basis.

Applications should be received by 30 June in each year to be considered for the forthcoming year.

In the case of an approved pensioner/s that buys, sells, or becomes deceased, a pro rata adjustment shall be made from the date of the transfer or death.

Where the property is held in joint ownership, then a pro rata concession shall be granted in proportion to the share of ownership, except where the co-owners are an approved pensioner and his/her spouse (including de facto relationships as recognised by Commonwealth Legislation).

In the case of exclusive occupancy or life tenancy granted by a will, a certified copy of same must be furnished to Council before a full concession will be granted.

13.2 Concession on Vacant Water and Wastewater Charges for Developers

The Council has determined that where developers are required to reticulate water and sewerage to a subdivision, an exemption from vacant water and sewerage charges will apply for a period of up to five (5) years unless there is a prior sale of such allotments and will apply from the date of registration of the plan. The concession is granted in accordance with the provisions of *Sections 120, 121* and *122* of the *Local Government Regulation 2012*.

13.3 Concession on Special, Separate and Utility Charges

Revenue Statement 2025/2026

Page 30 of 39

The Council has determined that certain rateable land held in the ownership of groups or organizations, which provide a public service or community benefit, will receive a concession on certain special, separate, and utility charges. The categories of organisations that qualify for the concessions are listed in Schedule D. The concession is granted in accordance with the provisions of *Sections 120, 121* and *122* of the *Local Government Regulation 2012*.

13.4 Waiving of Water Usage Charges - Haemodialysis Machines

The Council has determined that where ratepayers or residents require the use of a Haemodialysis machine for health reasons, then Council will grant a concession of water consumption charges.

For compassionate reasons, Council will allow an annual concession of up to 190KL on the water usage to any patient who qualifies for and operates a home Haemodialysis machine supplied by Queensland Health.

This concession is granted in accordance with Sections 120, 121 and 122 of the Local Government Regulation 2012.

13.5 Waiving of Minimum General Rate - Bore and Pump Sites, Small Parcels, et cetera

The Council has determined that the following classes of land will be exempted from the requirement to pay the minimum general rate levy but will pay a valuation based differential general rate which will be less than the minimum.

- (a) Any rateable land held as a Permit to Occupy for water facility purposes, namely bore and pump site and associated purposes only.
- (b) Properties that are small parcels of land worked in conjunction with properties held in the same ownership and identified in Schedule E.
 - This concession is granted in accordance with Sections 120, 121 and 122 of the Local Government Regulation 2012.

Revenue Statement 2025/2026 Page 31 of 39

13.6 Deferment of Liability to Pay Memerambi Special Charges (Roadworks and Drainage) in Full

The Council acknowledges that for property owners that have been levied Memerambi Special Charges, having to pay these charges in full by the due date shown on the rate notice issued 23 August 2016, will cause property owners hardship.

Consequently, Council is prepared to enter into a concession agreement with each property owner, under which the property owner is permitted, under certain conditions, to pay their Memerambi Special Charges by instalments over a ten (10) year period.

In the event that the property owner has entered into a concession agreement to pay the Memerambi Special Charges and fails to make the special charges instalment payments in accordance with the concession agreement, then interest will be applied to those overdue rates and charges at the rate set by Council for the prevailing financial year, like any other overdue rates and charges. Interest will be charged until the instalment payment has been made or until the concession agreement has been adhered to. Further action may also be undertaken in accordance with Council's Rate Collection Policy.

A property owner wishing to enter into a concession agreement must do so in accordance with the terms and conditions set out in the section 7.10 of the Infrastructure Agreement [Memerambi Village Roads and Drainage].

This concession is granted in accordance with Chapter 4 Part 10 (Section 125) of the Local Government Regulation 2012.

13.7 Concession on Memerambi Special Charges (Roadworks and Drainage) for Borrowing Expenses and Interest Charges

The Council has determined that where a property owner pays their entire Memerambi Special Charges in full by the due date displayed on the rate notice issued 23 August 2016, or at any time prior to the cessation of the 10-year instalment period, the property owner will be eligible for a pro rata concession on the Council borrowing expenses and interest charges that have been factored into the Memerambi Special Charges.

This concession is granted in accordance with Sections 120, 121 and 122 of the Local Government Regulation 2012.

14. Land Exempted from Rating

14.1 Exemption/Concession on General Rates

In accordance with the provisions of *Section 93* of the *Local Government Act 2009* and *Sections 120, 121* and *122* of the *Local Government Regulation 2012*, the Council has determined that land held in the ownership of groups or organizations which provide a public service or community benefit will receive a concession on differential general rates. Details are listed in Schedule D.

15. Schedules:

Revenue Statement 2025/2026 Page 32 of 39

Schedule A – Declared Sewerage Service Areas

Pursuant to Section 161 and Section 163 of the Water Supply (Safety and Reliability) Act 2008

Declared Sewerage Service Area	Evidence
Blackbutt	Each parcel of land: i) Contained within the declared sewerage service area shown in Sewerage Service Area Map - Blackbutt in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared sewerage service area for Blackbutt pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant sewerage system.
Boondooma Dam	 Each parcel of land: i) Contained within the declared sewerage service area shown in Sewerage Service Area Map - Boondooma Dam in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared sewerage service area for Boondooma Dam pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant sewerage system.
Kingaroy	Each parcel of land: i) Contained within the declared sewerage service area shown in Sewerage Service Area Map - Kingaroy in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared sewerage service area for Kingaroy pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant sewerage system.
Murgon	Each parcel of land: i) Contained within the declared sewerage service area shown in Sewerage Service Area Map - Murgon in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared sewerage service area for Murgon pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant sewerage system.
Nanango	Each parcel of land: i) Contained within the declared sewerage service area shown in Sewerage Service Area Map - Nanango in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared sewerage service area for Nanango pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant sewerage system.
Proston	Each parcel of land: i) Contained within the declared sewerage service area shown in Sewerage Service Area Map - Proston in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared sewerage service area for Proston pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant sewerage system.

Revenue Statement 2025/2026 Page 33 of 39

Schedule A – Declared Sewerage Service Areas

Pursuant to Section 161 and Section 163 of the Water Supply (Safety and Reliability) Act 2008

Declared Service Are		Evidence
Wondai		Each parcel of land: i) Contained within the declared sewerage service area shown in Sewerage Service Area Map - Wondai in the Customer Service Standards, Version 2.2 - April 2020; or
Yallakool	relevant sewerage system. Each parcel of land: i) Contained within the declared sewerage service area shown in Sewerage Service Area Map - Yallakool in the Customer Service Standards, Version 2.2 - April 2020;	
		or ii) Determined by Council resolution from time to time as being within the declared sewerage service area for Yallakool pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant sewerage system.

Schedule B – Designated Waste Collection Areas

Area	Evidence
Kingaroy	Each premises located within the shaded area contained in the Kingaroy North Designated Waste Serve Area map and the Kingaroy South Designated Waste Serve Area map as determined by Council resolution from time to time.
Nanango	Each premises located within the shaded area contained in the Nanango Designated Waste Serve Area map as determined by Council resolution from time to time.
Murgon	Each premises located within the shaded area contained in the Murgon Designated Waste Serve Area map as determined by Council resolution from time to time.
Mondure	Each premises located within the shaded area contained in the Mondure Designated Waste Serve Area map as determined by Council resolution from time to time.
Proston	Each premises located within the shaded area contained in the Proston Designated Waste Serve Area map as determined by Council resolution from time to time.
Hivesville	Each premises located within the shaded area contained in the Hivesville Designated Waste Serve Area map as determined by Council resolution from time to time.
Moffatdale	Each premises located within the shaded area contained in the Moffatdale Designated Waste Serve Area map as determined by Council resolution from time to time.
Wondai	Each premises located within the shaded area contained in the Wondai Designated Waste Serve Area map as determined by Council resolution from time to time.
Tingoora	Each premises located within the shaded area contained in the Tingoora Designated Waste Serve Area map as determined by Council resolution from time to time.
Memerambi	Each premises located within the shaded area contained in the Memerambi Designated Waste Serve Area map as determined by Council resolution from time to time.
Wooroolin	Each premises located within the shaded area contained in the Wooroolin Designated Waste Serve Area map as determined by Council resolution from time to time.
Wattlecamp	Each premises located within the shaded area contained in the Wattlecamp Designated Waste Serve Area map as determined by Council resolution from time to time.
Sandy Ridges	Each premises located within the shaded area contained in the Sandy Ridges Designated Waste Serve Area map as determined by Council resolution from time to time.
Runnymeade	Each premises located within the shaded area contained in the Runnymeade North and South Designated Waste Serve Area maps as determined by Council resolution from time to time.
Booie	Each premises located within the shaded area contained in the Booie Designated Waste Serve Area maps as determined by Council resolution from time to time.

Schedule C – Declared Water Supply Service Area

Pursuant to Section 161 and Section 163 of the Water Supply (Safety and Reliability) Act 2008

Declared Water Supply Service Area	
Blackbutt	 Each parcel of land: i) Contained within the declared water service area shown in Water Service Area Map - Blackbutt in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared water service area for Blackbutt pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.
Boondooma Dam	 Each parcel of land: i) Contained within the declared water service area shown in Water Service Area Map - Boondooma Dam in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared water service area for Boondooma Dam pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.
Kingaroy	 Each parcel of land: i) Contained within the declared water service area shown in Water Service Area Map-Kingaroy in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared water service area for Kingaroy pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.
Kumbia	 Each parcel of land: i) Contained within the declared water service area shown in Water Service Area Map-Kumbia in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared water service area for Kumbia pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.
Nanango	 Each parcel of land: Contained within the declared water service area shown in Water Service Area Map - Nanango in the Customer Service Standards, Version 2.2 - April 2020; or Determined by Council resolution from time to time as being within the declared water service area for Nanango pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.
Proston/ Proston Rural	Each parcel of land: i) Contained within the declared water service area shown in Water Service Area Map - Proston or Proston Rural in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared water service area for Proston or Proston Rural pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.

Revenue Statement 2025/2026 Page 37 of 39

Schedule C – Declared Water Supply Service Area

Pursuant to Section 161 and Section 163 of the Water Supply (Safety and Reliability) Act 2008

Declared Water Supply Service Area	
Tingoora	 Each parcel of land: i) Contained within the declared water service area shown in Water Service Area Map - Tingoora in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared water service area for Tingoora pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.
Wooroolin	 Each parcel of land: i) Contained within the declared water service area shown in Water Service Area Map-Wooroolin in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared water service area for Wooroolin pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.
Wondai	 Each parcel of land: i) Contained within the declared water service area shown in Water Service Area Map-Wondai in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared water service area for Wondai pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.
Yallakool	 Each parcel of land: i) Contained within the declared water service area shown in Water Service Area Map-Yallakool in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared water service area for Yallakool pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.
Murgon	 Each parcel of land: i) Contained within the declared water service area shown in Water Service Area Map - Murgon in the Customer Service Standards, Version 2.2 - April 2020; or ii) Determined by Council resolution from time to time as being within the declared water service area for Murgon pursuant to Section 161 of the Water Supply (Safety and Reliability) Act 2008 and being capable of being connected to the relevant water scheme.

Revenue Statement 2025/2026 Page 38 of 39

Schedule D – Exemptions/Concessions for General Rates, Special, Separate and Utility Charges

Section 93 of the Local Government Act 2009 and Sections 120, 121 and 122 of the Local Government Regulation 2012 provides for exemptions and/or concessions for rates and charges levied on certain classes of land. Council has determined the following exemptions or rate concessions:

Concession Category	Differential General Rates	Separate Rates	Water Access	Sewerage Access	Waste & Recycling Bin
Queensland Country Women's Association	100%	100%	75%	75%	0%
Youth Accommodation	100%	100%	0%	0%	0%
Youth Groups – Scouts, Guides	100%	100%	100%	100%	100%
Seniors and Welfare Groups	100%	100%	50%	50%	0%
Kindergartens	100%	100%	50%	50%	0%
Service and Other Clubs	100%	100%	75%	75%	0%
Show Grounds	100%	100%	50%	50%	0%
Race Grounds	100%	100%	0%	0%	0%
Museums, Theatres, Heritage	100%	100%	100%	100%	0%
Sporting Groups and Associations	100%	100%	75%	75%	0%
Charitable Organisations*	100%	100%	0%	0%	0%
Community Owned Halls	100%	100%	0%	0%	0%

*Definition: Revenue Policy 2025/2026 - 3.3 Concessions for Rates & Charges

- **e assist various Religious Organisations, Community Groups and Sporting Organisations who provide a public service or community benefit throughout the region in meeting their obligations to pay Council's rates and charges. The organisation or group must be an entity whose objects do not include making a profit and provides assistance or encouragement for arts or cultural development and must demonstrate how it will directly benefit the residents of the South Burnett region;"
- 1. Property owners must notify Council immediately if there is a substantive change in land use for a property that is receiving a rate concession.
- 2. Applications received during the current financial year that fall within the categories above, will be granted a rate concession following the passing of a resolution by Council.
- If a property has previously been granted a rate concession in the previous financial year, the
 owner will not be required to re-apply to receive the rate concession for the current financial
 year. However, they may be required to provide proof of their ongoing eligibility if requested to
 do so.

Schedule E - Exemptions from Minimum Rating

In accordance with Section 93 of the Local Government Act 2009 and Sections 120, 121 and 122 of the Local Government Regulation 2012 the Council has determined that certain classes of land will be exempted from the requirement to pay the minimum general rate levy, but will pay a valuation based differential general rate which will be less than the minimum.

- Any rateable land held as a Permit to Occupy for water facility purposes, namely bore and pump site and associated purposes only.
- (ii) Properties that are small parcels of land worked in conjunction with properties held in the same ownership and identified in table hereunder:

Assess No	Owner	Property Description and Location
31384	GSR Silburn	Hebbel Drive, Tablelands
31598-1	A Bradley and C Ewart and J and I Hinricks	Bradleys Road, Wooroonden

1. POLICY STATEMENT

This policy provides a framework that South Burnett Regional Council ('Council') intends to achieve an equitable distribution of the cost of its operations between different groups of ratepayers. In seeking to achieve this equitable distribution, Council's view is that every ratepayer should contribute at least at a basic level to the cost of operations of the Council.

SCOPE

This policy applies to all Council representatives.

3. GENERAL INFORMATION

The Revenue Policy forms part of the Council's annual budget in accordance with the *Local Government Regulation 2012* ('Regulation'), which states the strategic policy position of Council in relation to revenue measures to be adopted.

Council has regard to the measures required to stimulate the local and national economy and, particularly where the Council is in competition with private sector providers of goods and services, will price according to generally accepted market principles. These principles ensure the Council does not put private sector providers at a disadvantage because its businesses are publicly owned.

Council will ensure that the rates and charges made are sufficient to cover the cost of its operations and that it is able to continue to provide services to the community at a level consistent with the growth and development of the area.

Council will be guided by the user-pays principle in setting rates and charges. The intention is to minimise the impact of rating on the local economy, so that the cost of a Council service is incurred by the user of that service wherever possible and individual consumers of a commodity or service cannot always be separately identified. Therefore, there is a need for specific user charges to be supplemented by other general revenue sources.

Council will benchmark any variations in charges from year to year against the general movement in prices that occur in other sectors of the community as measured by indexes such as Roadwork Input Cost Index, the Consumer Price Index, Council Cost Index (calculated by the Local Government Association of Queensland) and their components. Council needs to ensure that the rates and charges made are sufficient to cover the cost of its operations and that it is able to continue to provide services to the community at a level consistent with the growth and development of the area.

Policy Name: Revenue Policy 2025/2026 ECM ID: 3195773

Adoption Date: 21 May 2025

Page 1 of 5 Next Review Date: May 2026

Council business units that have adopted the code of competitive conduct, prices will be set according to full cost pricing principles including the achievement of an appropriate return on Council's investment.

3.1. Levying of rates and charges

Rates and charges are determined after consideration of the following:

- · Council's legislative obligations;
- the needs and expectations of the general community as determined by formal and informal consultation and survey processes;
- · the cost of maintaining existing facilities and necessary services;
- the need for additional facilities and services; and
- equity by ensuring the fair and consistent application of lawful rating and charging principles, without bias, taking account of all relevant considerations, and disregarding irrelevancies such as the perceived personal wealth of individual ratepayers or ratepayer classes.

In levying rates and charges, Council will apply the principles of:

- making clear what is the Council's and each ratepayers responsibility to the rating system;
- making the levying process, granting discount and any refund of rates and charges as simple and efficient to administer as possible;
- timing the levy rate notices to consider the financial cycle to which the ratepayers are accustomed or may adapt to; and
- flexibility by providing payment arrangements to ratepayers with a demonstrated lower capacity to pay, along with a wide array of payment options.

Council will also have regard to the principles of:

- · transparency of process;
- · simplicity and efficient administration; and
- flexibility to take account of changes in the local economy, extraordinary circumstances and impacts that different industries may have on Council's infrastructure.

3.1.1. General rates

General rate revenue provides essential whole of community services not funded through subsidies, grants, contributions, or donations received from other entities, or not provided for by other levies or charges. Council will consider all full cost recovery options before calculating the general rate.

Council is required to raise an amount of revenue it sees as being appropriate to maintain assets and provide services to the region. Council has formed the opinion that the differential general rating scheme provides the most equitable basis for the distribution of the general rate burden.

In formulating the differential general rating scheme Council has considered equity by implementing distribution of the general rate based on the land use. Where necessary a particular class of land use is further subdivided on a geographic basis.

The unimproved value/site value for each property is the basis for determining the amount of the general rates levied. Council recognises that significant valuation fluctuations may have an adverse effect on customers and considers that this impact should be smoothed so that the impact in any one year is reduced. Council may achieve this by establishing new differential rating categories, averaging the valuation or limiting rate increases in accordance with the Regulation.

3.1.2. Separate or special rates

Council may fund certain services and facilities by means of separate or special rate or charge in accordance with the Regulation. Council will levy special rates and charges on certain properties that are considered to be benefited by the provision of specific services, facilities or activities.

Special rates are based on the unimproved value/site value of the land and special charges are a flat charge per property, where this is considered to provide a more equitable basis for the sharing of the cost.

Policy Name: Revenue Policy 2025/2026

Page 2 of 5 Next Review Date: May 2026

ECM ID: 3195773 Adoption Date: 21 May 2025

3.1.3. Other charges

Council will be guided by the principle of user pays where it can easily identify the cost associated with supplying a particular service and may use this principle for water supply, wastewater, refuse collection, and the like. Where Council considers that moving to full cost recovery for a particular service may cause undue hardship Council will phase in the full cost recovery over a period of time.

3.2. Recovery of rates and charges

Council will exercise its rate recovery powers to reduce the overall rate burden on ratepayers. It will be guided by the principles of:

- transparency by making clear the obligations of ratepayers and the processes used by Council in assisting them meet their financial obligations:
- simplicity by making the processes used to recover outstanding rates and charges clear, simple to administer and cost effective:
- capacity to pay by determining appropriate arrangements for different sectors of the community;
- equity by providing the same treatment for ratepayers with similar circumstances; and
- flexibility by responding where necessary to changes in the local economy.

3.3. Concessions for rates and charges

Statutory provision exists for the Council to rebate or postpone rates in certain circumstances and are detailed in the Regulation.

In considering the application of concessions, Council will be guided by the principles of:

- equity by having regard to the different levels of capacity to pay within the local community;
- consistency by applying the same treatment for ratepayers with similar circumstances;
- transparency by making clear the requirements necessary to receive concessions; and
- flexibility by allowing Council to respond to local economic issues.

The predominant purpose for which Council grants concessions is to:

- assist pensioners in meeting their obligations to pay Council's rates and charges;
- assist various religious organisations, community groups and sporting organisations who provide
 a public service or community benefit throughout the region in meeting their obligations to pay
 Council's rates and charges. The organisation or group must be an entity whose objects do not
 include making a profit and provides assistance or encouragement for arts or cultural
 development and must demonstrate how it will directly benefit the residents of the South Burnett
 region;
- assist ratepayers who have experienced high water charges due to undetected water leaks in meeting their obligations to pay Council's rates and charges;
- assist developers that are required to provide reticulated water and wastewater to a subdivision in meeting their obligations to pay Council's rates and charges; and
- assist ratepayers who are receiving home haemodialysis in meeting their obligations to pay Council's rates and charges.

3.4. Cost recovery fees

Section 97 of the Local Government Act 2009 ('Act') allows Council to set cost recovery fees. The Council recognises the validity of fully imposing the user pays principle for its cost recovery fees, unless the imposition of the fee is contrary to its express social, environmental, and other corporate Section 97 of the Local Government Act 2009 ('Act') allows Council to set cost recovery fees. The Council recognises the validity of fully imposing the user pays principle for its cost recovery fees, unless the imposition of the fee is contrary to its express social, environmental, and other corporate goals. This is considered to be the most equitable and effective revenue approach and is founded on the basis the region's rating base cannot subsidise the specific users or clients of Council's regulatory products and services.

Policy Name: Revenue Policy 2025/2026 ECM ID: 3195773

Page 3 of 5

Adoption Date: 21 May 2025

Next Review Date: May 2026

In setting its cost recovery fees, Council will be cognisant of the requirement that such a fee must not be more than the cost to Council of providing the service or taking action to which, the fee applies.

Commercial charges

Sections 9 and 262 of the Act provides the Council, with powers to charge for services and facilities it supplies other than a service or facility for which a cost recovery fee may be fixed.

Commercial charges are for transactions where the Council is prepared to provide a service and the other party to the transaction can choose whether or not to avail itself of the service.

The nature, level and standard of the entitlement, facility or service is considered by the Council in the setting of commercial charges. Central to deliberations on these matters is the Council's community service obligation and the principle of social equity. The Council may set a charge with the aim of achieving a profit from the service or facility provided.

The principle of user pays is considered where the provision of a service, entitlement or facility may be in direct competition with private enterprise.

3.6. Funding of physical and social infrastructure costs

Council requires developers to pay reasonable and relevant contributions towards the cost of infrastructure required to support the development. Specific charges are detailed in the Infrastructure Charges resolution adopted by Council.

These charges are based on normal anticipated growth rates. Where a new development is of sufficient magnitude to accelerate the growth rate of a specific community within the region, it may be necessary to bring forward social infrastructure projects. Where this occurs, Council expects developers to meet sufficient costs so that the availability of facilities is not adversely affected and so that existing ratepayers are not burdened with the cost of providing the additional infrastructure.

Annual budget means, for a local government, its annual budget under Chapter 5, Part 2, Division 3 of the Regulation.

Business unit, means, of a local government, a part of the local government that conducts a business activity of the local government.

Code of competitive conduct means referenced within Section 47 of the Act.

Concession for rates or charges means a concession granted under Chapter 4, Part 10 of the Regulation.

Cost recovery fee means as referenced in Section 97(2) of the Act.

Differential general rates means as referenced within Section 80(2) of the Regulation.

Full cost pricing, of a significant business activity, as referenced within Section 44(3) of the Act.

Local government principles means the principles expressed in the form of outcomes set out in Section 4(2) of the Act.

Pensioner means a person who is the holder of a pensioner concession card issued by the department of the Commonwealth responsible for administering the Social Security Act 1991 or the Veterans' Entitlements Act 1986.

Ratepayer means a person who is liable to pay rates or charges.

Percentage Change in Rates Levied from 2023-2024

In accordance with Section 169 of Local Government Regulation 2012:

- the budget must include the total value of the change, expressed as a percentage, in the rates and utility charges levied for the financial year compared with the rates and utility charges levied in the previous budget, and
- for calculating the rates and utility charges levied for a financial year, any discounts and concessions must be excluded.

Council's rates and utility charges revenue is projected to increase through a combination of natural growth and general increase by 5.28% in 2025/2026 compared with the rates and utility charges levied in the previous budget for 2024/2025.

Special Council Meeting 16 July 2025
