# Message from South Burnett Regional Council Mayor Keith Campbell

Council is pleased to deliver the 2019/20 Financial Year Budget. It is the last budget for this current term of Council and has maintained our focus of delivering the essential, yet maybe basic, infrastructure and services for our diverse region.

anaging the diverse expectations of all of our residents, meeting the delivery of the essential and taking into account the affordability of the rates is not an easy task yet one that Council works extremely hard to balance.

Council is no different to any other business when it comes to economic downturn, cost increases, finding efficiencies and making sound decisions around its capital investment. In addition to these factors, while the Council is most appreciative of the funding assistance from the Federal and State Government the ongoing nature of that assistance is something that this Council will continue to lobby for along with the Local Government Association of Queensland, as any change in these funds affects both service delivery and capital expenditure.

Preparation of the 2019/20 Budget commenced in late November 2018.

# During this time Council held 14 workshops to understand and debate all elements of the budget

- The revenue requirements for General Operations Including Road Capital and Road Maintenance, the Water and Wastewater Program and the Waste Program.
- Reviewing the operational expenditure for the above key program areas
- Reviewing the outputs of and the implications of the Rate Models for the above programs.
- Reviewing the key influencers of Council's budget

   External Funding, the Borrowing Program and
   Depreciation as a result of the recent comprehensive revaluation for the Road and Drainage Asset Class.

- Reviewing the Queensland Treasury Corporation's Maximum Allowable Revenue Model which is a full cost pricing approach for the Water and Wastewater Programs.
- Developing three year capital investment programs for all key asset classes – Parks and Recreation, General Buildings, Water, Wastewater, Roads and Drainage, Plant and Fleet and Information Technology.
- Reviewing the effects of the new Valuations for the Region
- Reviewing the Differential Rating Categories in light of the valuation

There was a significant information exchange during this time and I can assure our ratepayers that no stone was left unturned in terms of understanding the revenue and expenditure requirements for the coming year.

The result of all of these considerations is a \$66M operational budget and a \$20.8M capital budget which is achievable and affordable. Council aims to invest in projects and services that are in the best interest for our community and region.

The Local Government Regulation 2012 requires that the budget include the total value of the change, expressed as a percentage, in the rates and utility charges levied for the financial year compared with the rates and utility charges levied in the previous budget.

Council's total rates and utility charges revenue is projected to increase by 4.04% in 2019/20 compared with the rates and utility charges levied in 2018/19.

# The following however is summary of the changes across all rates and charges:

| Rate and Charge                         | Increase  |
|---|---|
| Differential General Rates              | 1.9%  |
| Water Access Charge                     | 4%  |
| Water Consumption Charge                | 1.5%  |
| Sewerage Charge                         | 6%  |
| Domestic Refuse Collection              | 2.5%  |
| Commercial Refuse Collection            | 29% (to account for the introduction of the State Waste Levy) |
| Community Rescue and<br>Evacuation Levy | No change   |
| Rural Fire Levy                         | No change   |
| Waste Management Levy                   | 6%  |

In addition to the above charges Council will be introducing an Extractive Industry Special Charge for newly approved Extractive Industries in the region. Along with this, a review of the differential rates for Windfarms has also been undertaken. This increase in the differential general rates will not exactly translate to a 1.9% even increase across every property.

This year Council received a new valuation for the South Burnett. The recent revaluations from the Department of Natural Resources, Mines and Energy has resulted in significant variations in valuations for properties in the Council area.

In terms of the rating affect due to the variation, Council fully investigated all options available to smooth this rating affect. The smoothing tools currently utilised by Council and which are utilised to mitigate rating variations are Three Year Valuation Averaging and Rate Capping. Three Year Valuation Averaging of the valuations facilitates an incremental change in rates for affected properties over the next three years. While Rate Capping limits the annual increase which might be applied to properties. Council's current cap is set at 30%. Moreover, as mentioned above Council investigated all options to manage the variations of the recently released unimproved land valuations.

The rating affect is better summarised below and does not account for every variation in each differential rating category. While the differential general rate has been set to achieve an extra 1.9% in each differential rating category, the variation of the rate account to individual properties within each differential rate category will differ depending on the individual properties valuation and how it relates to the average valuation for each differential rate category.

Council has continued to manage its debt and has not predicted any new borrowing this budget year, however there are forward borrowing predictions to renew our Water and Sewerage assets over time. During this budget year, Council will complete a full strategic review of these asset classes which will better inform our forward capital investment and capital funding considerations.

As a sustainable management practice the capital program is largely a renewal program with minor upgrades to our essential assets. More specifically the project program is 87% renewal with 13% as minor upgrade.

### A summary of the capital program is:

- · Building Assets \$3.478M
- · Plant and Fleet \$2.745M
- · Information Technology \$873,000

\$6.885M up from \$6.750M last year.

- Road and Drainage \$10.646M
- Water Supply \$1.82MWastewater \$855,000
- Wastewater \$855,0
   Waste \$401,000

The total spend on the Regions Road Network inclusive of maintenance and State and Federal funded projects is \$20.061M. The spend on road maintenance alone is

# Exclusive of depreciation, Council has allocated \$33M on operation and maintenance of other essential

- Buildings, Tourist Facilities, VICS, Museums and Caravan Parks - \$1,884M
- · Pools and Halls \$1,134M
- · Aerodromes -\$236,000

activities:

- · Sport, Parks and Public Conveniences \$3.707M
- NRM, Pest Management, Dips and Sale Yards \$699,000
- · Cemeteries \$453,000
- · Libraries \$1.341M
- Council Depots and Properties \$336,000
- Water Supplies \$8.037M
- · Wastewater Supplies \$4.312M,
- Waste Collection and Disposal \$4,89M
- · Plant and Fleet \$6.123M

Waste Management is another area where there is significant change. Implementation of the State Waste Levy has a flow on effect to Commercial Collection Charges from \$188 to \$243 while households will not be affected by the Levy. Council has issued a press release during the budget preparation process advising of cost of \$75 per tonne from 1 July 2019, the State Waste Levy will apply to the disposal of construction, demolition, commercial, agricultural and contaminated land waste at waste disposal facilities.

# MAYOR'S SPEECH

Council has also started to budget for surpluses in its Waste Management Program to start to build funds to provide a major waste facility in about 2028/29 as the current landfill sites reach their end of life. The estimated capital expenditure for that new facility is \$7.8M. From 2029/30 the current estimates provide for a further spend over the ensuing seven years of \$13M for the staged closure of the current landfills to the required environmental standard.

While there is a list of all capital expenditure in the budget document and the projects earmarked for the next three financial years, here is a snapshot of some projects showing our commitment to managing assets across the region:

- \$416K to replace roof sheeting, roof tie downs and restumping of Mondure Hall
- · \$193K to re-sheet the roof at Ringsfield House
- \$240K for various upgrades at Yallakool Caravan and Recreation Park
- · \$350K on the Maidenwell Transfer Station
- \$400K to update scada/cyber security of sites to telemetry, Murgon
- \$325K on Mount Wooroolin Reservoir roof replacement\$165K on water main replacement – Drayton Street (Brisbane to Home), George Street (Drayton to Elk) and Alfred Street (Gipps to Henry), Nanango
- \$65K on water main replacement Wills Street West (Gipps to Cairns), Nanango
- \$5.026M on gravel re-sheeting as per the Gravel Re-Sheeting Plan
- \$380K to bitumen seal missing link (approximately 2km) on Old Esk Road (Nanango)
- \$154K bitumen seal upgrade to unsealed portion on Niagara Road
- \$140K on bitumen reseal and rehabilitation to Mary Street, Coolabunia State School carpark and bus zone
- \$100K on town entry signage
- · \$400K for Brisbane Street (Nanango) Drainage

Council has maintained its support for eligible pensioners by providing a Council rebate to a maximum of \$200 per year matching the State Government support of \$200. This totals \$400 per annum in support for eligible pensioners.

Councillors and I believe that we are delivering an extensive capital investment and service delivery program despite operating at a deficit.

# The following are the estimated operating financial results for the current budget year, plus the next two:

- · Deficit 2019/2020 \$1.539M
- · Deficit 2020/2021 \$252,127
- · Return to a surplus 2021/2022 \$218,079.

As a further measure of fiscal responsibility, Council estimates by the end of the 2020 financial year, Council will have reduced the debt level by \$2.4M.

As I have mentioned earlier, this Council has worked extremely hard to meet and respond to community expectations. The budget for this financial year and estimated budgets for the next 9 financial years are within the guidelines for the measures of sustainability for Local Government.

This is a strong result for the South Burnett Regional Council.

It gives me great pleasure to present the 2019/20 South Burnett Regional Council Budget.

U

Mayor Keith Campbell South Burnett Regional Council

# 1. Budget Overview

### 1.1 Legislative Requirement

Council's Annual Budget is required to be adopted in accordance with the *Local Government Act 2009* and the *Local Government Regulation 2012*.

Section 107A provides that:

- 1. A local government must consider the budget presented by the mayor and, by resolution, adopt the budget with or without amendment.
- 2. The Mayor must give a copy of the budget, as proposed to be presented to local government, to each Councillor at least two (2) weeks before the local government is to consider adopting the budget.
- 3. The local government must adopt a budget before 1 August in the financial year to which the budget relates.

The content of the Annual Budget is prescribed in Section 169 of the *Local Government Regulations* 2012.

### 1.2 Strategic Planning

## 1.2.1 Corporate Plan

The Corporate Plan is Council's strategic business plan, providing framework for Council to develop strategies that deliver outcomes and achieve our vision. Our current Corporate Plan was adopted at the general Council meeting held on 21 March 2018. The strategic outcomes and key strategies are listed below:

### **Enhancing Our Community**

Building a vibrant, healthy, supportive and inclusive community

### **Growth and Opportunity**

A strong and sustainable regional economy supported by diverse sectors and innovative planning mechanisms

### **Our Environment**

A sustainable environment, proactively and responsibly managed in partnership with the community for future generations

### **Organisational Excellence**

An organisation that is characterised by effective leadership, responsible management and quality service delivery

### Infrastructure

The provision of quality services and infrastructure for our community that is planned, provided and managed on sound asset management principles

## 1.2.2 Asset Management Plans

The sustainability of local governments in Queensland has been directly linked to the development and ongoing use of asset management plans to provide a basis for the renewal and maintenance of the infrastructure of the local government, together with the development and use of long-term financial forecasts.

Council continues to evolve in this area with the following key activities being undertaken:

Comprehensive Review of the Road and Drainage Asset Class undertaken in 2018/19;

- A comprehensive review of all Property Assets, including a comprehensive valuation in 2019/20;
- A comprehensive review of the Water and Wastewater Asset Class in 2019/20; and
- A complete review of the Asset Management Plans for all Asset Classes by 2020.

### 1.2.3 Operational Plan

The Operational Plan was adopted by Council on 12 June 2019.

## 1.2.4 Revenue Policy

The Revenue Policy was adopted by Council on 20 March 2019 and sets out the principles to be used by the South Burnett Regional Council in 2019/20 for the making of rates and charges, the levying of rates, the granting of concessions, the recovery of unpaid rates and charges and the purpose of any concession or deferral of rates and charges under Section 193 of the *Local Government Regulation 2012*.

# 1.2.5 Budget

The budget must:

- be prepared on an accrual basis
- include the following statements for 2019/20, 2020/21 and 2021/22;
  - Financial Position (Balance Sheet)
  - Cash Flow
  - Income and Expenditure
  - Changes in Equity
- include a Long-Term Financial Forecast
- be accompanied by its Revenue Statement
- include the following measures of financial sustainability;
  - Asset Sustainability Ratio
  - Net Financial Liabilities Ratio
  - Operating Surplus Ratio
- include total value of the change, expressed as a percentage, in the rates and utility charges levied for 2019/20 compared with the rates and utility charges levied in the previous budget
- be consistent with the Corporate Plan and Annual Operational Plan.

### 1.2.6 Revenue Statement

The document includes the following matters:

- how rates and charges are determined;
- details on all concessions;
- details on any limitations in increases on rates and charges;
- criteria used to decide the amount of the cost-recovery fees;
- criteria for approval of early payment discount for late payments;
- details on collection of outstanding rates including the process for arrangements to pay;
   and
- details of payment methods.

# 1.2.7 Long-Term Financial Forecast

A Long-Term Financial Plan for the years 2019/20 to 2028/29 has been developed. The key objective of the Financial Plan is to:

 understand the Council's financial sustainability for the longer term while focusing on seeking to deliver operational surpluses and to achieve the Council's strategic outcomes as specified in the Corporate Plan.

## 1.3 Budget Inclusion

The budget for the year 1 July 2019 to 30 June 2020 also includes:

- a schedule of the rates and charges to be levied;
- detailed information on the capital works program to be undertaken;
- detailed program of works to be undertaken from separate charges;
- total expenditure on roads maintenance and replacement, including main roads works;
- schedule of concessions on rates;
- schedule of restricted cash;
- revenue statement;
- long-term financial forecast;
- value of change in rates and utility charges;
- Debt Policy;
- Investment Policy; and
- Revenue Policy.

# 2. Budget 2019/20

# 2.1 Financial Position 2019/20-2021/22

|   |        | Year 1      |    | Year 2      |    | Year 3      |

## 2.7 Financial Sustainability Ratios

Section 169 of the *Local Government Regulation 2012* requires the budget to include relevant measures of financial sustainability for the financial year 2019/20 and the next nine (9) financial years. The relevant measures of financial sustainability are the following measures as described in the Financial Management (Sustainability) Guideline.

### 2.7.1 Asset Sustainability Ratio

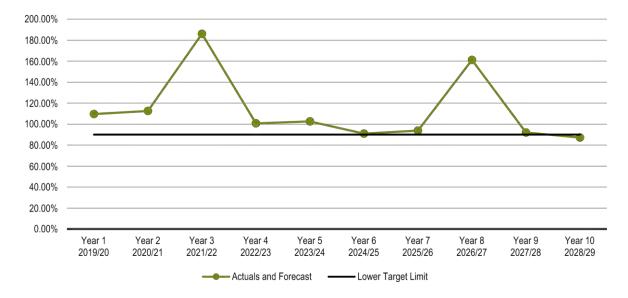

Assets sustainability ratio is amount of capital expenditure on the replacement of assets (renewals) divided by the depreciation expense expressed as a percentage.

This ratio is an approximation of the extent to which the infrastructure assets managed by the local government are being replaced as these reach the end of their useful lives.

| Lower Target Limit                                      | 90.00%  | 90.00%  | 90.00%  | 90.00%  | 90.00%  |

| SBRC Proposed Target                                    | Year 6<br>2024/25 | Year 7<br>2025/26 | Year 8<br>2026/27 | Year 9<br>2027/28 | Year 10<br>2028/29 |
|---|-------------------|-------------------|-------------------|-------------------|--------------------|
| Target greater than 90% (on average over the long-term) | 90.94%            | 93.83%            | 161.18%           | 92.01%            | 87.23%             |
| Lower Target Limit                                      | 90.00%            | 90.00%            | 90.00%            | 90.00%            | 90.00%             |

This ratio indicates whether Council is renewing or replacing existing non-financial assets at the same rate that its overall stock of assets is wearing out.

## 2.7.2 Net Financial Liabilities Ratio

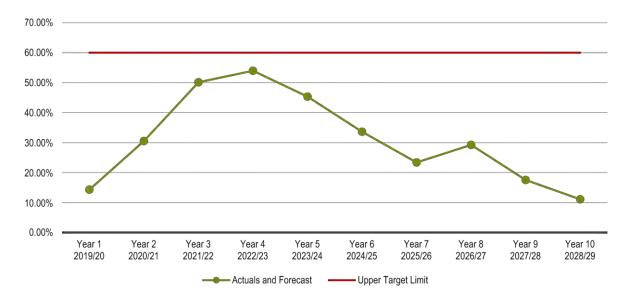

Net financial liabilities ratio measures Council's total liabilities less its current assets divided by its total operating revenue expressed as a percentage.

This ratio is an indicator of the extent to which the net financial liabilities of a local government can be serviced by its operating revenues.

|  | Year 1  | Year 2  | Year 3  | Year 4  | Year 5  |
|--|---------|---------|---------|---------|---------|
| SBRC Proposed Target                                 | 2019/20 | 2020/21 | 2021/22 | 2022/23 | 2023/24 |
| Target less than 60% (on average over the long-term) | 14.31%  | 30.54%  | 50.14%  | 53.98%  | 45.34%  |
| Upper Target Limit                                   | 60.00%  | 60.00%  | 60.00%  | 60.00%  | 60.00%  |

| SBRC Proposed Target                                 | Year 6<br>2024/25 | Year 7<br>2025/26 | Year 8<br>2026/27 | Year 9<br>2027/28 | Year 10<br>2028/29 |
|--|-------------------|-------------------|-------------------|-------------------|--------------------|
| Target less than 60% (on average over the long-term) | 33.62%            | 23.39%            | 29.25%            | 17.55%            | 11.10%             |
| Upper Target Limit                                   | 60.00%            | 60.00%            | 60.00%            | 60.00%            | 60.00%             |

This is an indicator of the extent to which the net financial liabilities of Council can be serviced by operating revenues.

# 2.7.3 Operating Surplus Ratio

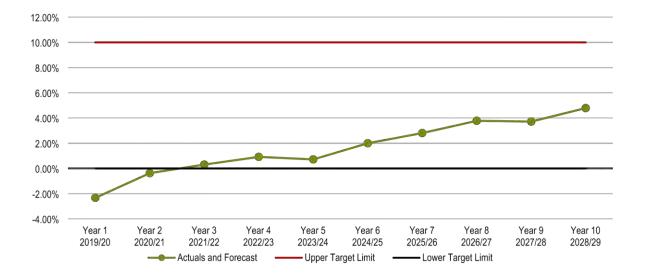

An operating surplus ratio is the net result divided by total operating revenue expressed as a percentage.

This ratio is an indicator of the extent to which revenue raised covers operational expenses only or is available for capital funding purposes or other purposes.

| SBRC Proposed Target                                      | Year 1<br>2019/20 | Year 2<br>2020/21 | Year 3<br>2021/22 | Year 4<br>2022/23 | Year 5<br>2023/24 |
|---|-------------------|-------------------|-------------------|-------------------|-------------------|
| Target between 0% and 10% (on average over the long-term) | -2.33%            | -0.37%            | 0.31%             | 0.92%             | 0.72%             |

This is an indicator of the extent to which revenues raised cover operational expenses only or are available for capital funding purposes.

#### 2.8 Revenue Statement

#### South Burnett Regional Council

### Revenue Statement 2019/20

#### Introduction

Sections 169 and 172 of the *Local Government Regulation 2012* require a local government to prepare a revenue statement each financial year. The revenue statement must state:

- (a) If the local government levies differential general rates:
  - (i) The rating categories for rateable land in the local government area; and
  - (ii) A description of each rating category; and
- (b) If the local government levies special rates or charges for a joint government activity, a summary of the terms of the joint government activity; and
- (c) If the local government fixes a cost-recovery fee, the criteria used to decide the amount of the cost-recovery fee; and
- (d) If the local government conducts a business activity on a commercial basis, the criteria used to decide the amount of the charges for the activities goods and services.

The revenue statement for a financial year must include the following information for the financial year:

- (a) An outline and explanation of the measures that the local government has adopted for raising revenue, including an outline and explanation of:
  - (i) The rates and charges to be levied in the financial year; and
  - (ii) The concessions for rates and charges to be granted in the financial year;
- (b) Whether the local government has made a resolution limiting an increase of rates and charges.

Generally, this statement does not deal with specific dollar amounts. The Statement deals with the reasoning applied by Council in fixing rates and charges and if applicable, how the Council applies user pays principles to utility and general charges.

The revenue measures adopted are determined at the budget meeting and are based on the Council's Revenue Policy.

# Revenue Raising Matters Adopted in the Budget Concerning the Making and Levying of Rates and Charges

### Rates and Charges

### 1. General Principle

The general principle adopted by Council in determining rates and charges shall be that wherever possible, charges shall relate directly to the services provided, e.g. Water Supply, Waste Water Collection, Refuse Collection. Costs which are not able to be recovered by cost recovery fees, business activity fees or utility charges shall be met by the levying of a general rate as hereinafter described.

It is therefore evident from this Revenue Statement that Council will use a combination of specific user charges, separate charges, special charges and differential general rates, as a means of spreading the rating burden in the most equitable and rational way possible.

### 2. Differential General Rates

### (a) Reasons

In determining its general rating strategies, the Council recognises that:

- The valuation of the South Burnett Regional Council area which became effective from 1 July 2019 would lead to rating inequities and a distortion of the relativities in the amount of rates paid in the various parts of the local government area if only one general rate were adopted;
- The level of services provided to that land and the cost of providing services compared to the rate burden that would apply under a single general rate; and
- The differing levels of demand that some land uses place on the services which Council is required to provide.

Having regard to the above matters, and pursuant to Section 92 of the *Local Government Act* 2009 and Chapter 4 of the *Local Government Regulation* 2012, it is considered that differential rating should form the basis of Council's general revenue raising.

For differential rating purposes it is proposed that rateable lands be divided into broad categories, these categories are:

- Residential Lands
- Commercial Lands
- Industrial Lands
- Rural Lands
- Other Lands

The commercial, industrial and residential categories are further subdivided to reflect differing classes of land within those broader categories. This will allow a more equitable distribution of the cost of operations given that the unimproved value of the land does not fully reflect operational demands and service levels in various sectors of the community.

Pursuant to Section 81 of the *Local Government Regulation 2012*, all rateable lands contained in the South Burnett Regional Council have been categorised into one of the following categories:

| Category | Differential Category  | Description  | Identification  |
|----------|------------------------|--|---|
| 1        | Residential - Kingaroy | All properties in this category are located within the Kingaroy Urban Locality and are used solely for residential purposes, or if vacant land, is zoned for residential use under the Planning Schemes relevant to South Burnett Regional Council, and intended for use for residential purposes only. Urban Localities are defined in "Individual Urban Locality" maps series. Council will be guided by the Department of Natural Resources and Mines land use code 72 when determining the properties that fit into this category. | 1. This category will cover all land within the Kingaroy Urban locality, where the dominant purpose for which that land is used, or intended for use, is a residential purpose and not included in any other category.  2. That such land in this category will in the main be owner occupied and where tenanted, the revenue earned is limited to rental income solely.  3. That in the case of land on which there is erected a single unit domestic dwelling to the extent that the dominant use of the land is residential, it will fall into this category regardless of the zoning of the land. |

| 6     | Rural                     | All properties in this category are located anywhere within the South Burnett Regional Council area, and are used for the business of primary production. Council will be guided by the Department of Natural Resources and Mines land use codes between 60 and 71, 73 and 89, and 93 when determining the properties that fit into this category. | 1. This category will cover all land in the region that is used for the business of primary production, including agricultural, grazing, horticulture, aquaculture and similar purposes;  2. Is not included in any other category; and  3. Properties in this category must qualify for the Department of Natural Resources and Mines primary producers' concession, and are identified by the land use codes below.  4. Land with land use codes 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89 and 93 or as otherwise identified by the CEO. |
| 419   | Water - Pumping & Storage | All properties in this category are used for the purpose of water storage or water pumping. Council will be guided by the Department of Natural Resources and Mines land use code of 95 when determining the properties that fit into this category.   | This category will cover all land used for the purpose of water storage or water pumping and not included in any other category.     Land with land use code 95 or as otherwise identified by the CEO.  |
| 7     | Other                     | Any land that cannot be included in any other category.  | As identified by the CEO.   |

# (a) Basis on Which Amounts Calculated

General Rates are principally allocated to rateable properties in the Regional area based on the Unimproved Value (UV) of the land under the *Valuation of Land Act*, as supplied by the Land and Property Division of the Department of Natural Resources and Mines. General Rates are used to fund the general operations of Council after allowing for the income from all other rates and charges and grants and subsidies. The term "rateable land" is defined by Section 93(2) of the *Local Government Act* 2009.

#### 3. Minimum General Rate

#### (a) Reason

The Council recognises that all parcels of land will receive a benefit from services provided and that, in some instances; the levying of a rate based on the valuation will result in some lands not contributing to the cost of such services in proportion to the benefit received.

### (b) Basis on Which Minimum General Rate Calculated

In accordance with Chapter 4, Part 4 of the *Local Government Regulation 2012*, minimum general rates will be determined in each year based on the level of services provided in the budget for that year.

### 4. Averaging of Land Values Over 3 Years

#### (a) Reason

The Council recognises that as a result of the recent revaluation, some property owners face large increases in General Rates, as their property valuation has increased significantly higher than the average. In order to minimise the impact of significant valuation increases for these property owners, Council has decided to utilise the averaging tool set out in Chapter 4, Part 3 of the *Local Government Regulation 2012*.

### (b) Basis on Which Averaging of Land Values is Calculated

In accordance with Sections 74 and 76 of the *Local Government Regulation 2012*, differential general rates will be calculated based on a three year averaged valuation.

For properties that do not have three valuations on which to base an average, a 3-year averaging number will apply in accordance with Section 76 of the *Local Government Regulation 2012*.

#### 5. Limitation of Increase in Amount of General Rates

### (a) Reason

The Council recognises that as a result of the recent revaluation, some property owners face large increases in General Rates, as their property valuation has increased above the average. In order to minimise the impact of significant valuation increases for these property owners, Council has decided to place a limit on the increase in general rates applicable to each rate assessment as set out in Section 116 of the *Local Government Regulation 2012*.

### (b) Basis on Which Limitation is Calculated

In accordance with Section 116 of the Local Government Regulation 2012;

- (i) For land on which the rate levied for the previous financial year was for a full year the amount of the rate levied for the previous financial year plus 30%.
- (ii) For land on which the rate was levied for the previous financial year was for a period less than the full year the corresponding annual amount for the rate levied for the previous financial year plus 30%.

Revenue Statement 2019/20

### 6. Special Charges

#### 6.1 Special Charge – Rural Fire Levy

#### (a) Reason

In accordance with the Fire and Emergency Services Act 1990 and the Fire and Emergency Services Regulation 2011, allowing Local Governments to make and levy a charge on all parcels of rateable land serviced by a Rural Fire Brigade, the Council decided to impose such a charge on all rateable land not situated in an urban fire brigade area, as defined by the Queensland Fire & Emergency Service.

#### (b) Basis on Which Special Rural Fire Charge Calculated

In accordance with Section 92(3) of the *Local Government Act 2009* and Chapter 4 Part 6 of the *Local Government Regulation 2012* and Section 128A of the *Fire and Emergency Services Act 1990*, Council will make and levy a special charge of \$25, on all rateable land within the region, other than rateable land that is liable to pay an urban fire district levy (pursuant to Section 107 of the *Fire and Emergency Services Act 1990*), to fund the ongoing provision and maintenance of rural fire-fighting equipment for the rural fire brigades that operate throughout the rural areas of the region.

The overall plan for the Rural Fire Levy is as follows:

- The rateable land to which the plan applies is all rateable land within the region, other than rateable land that is liable to pay an urban district fire levy (pursuant to Section 107 of the Fire and Emergency Services Act 1990).
- The service, facility or activity for which the plan is made is the ongoing provision and maintenance of rural fire-fighting equipment for the rural fire brigades that operate throughout the rural areas of the region.
- The time for implementing the overall plan is 1 year commencing 1 July 2019 and ending 30 June 2020.
- The estimated cost of implementing the overall plan is \$218,000.
- The level of contribution each brigade receives will be decided by the Local Area Rural Fire Services Committee.

The Council is of the opinion that the rateable land to be levied with the special charge specially benefits from the fire emergency response capability that is provided by the rural fire brigades, which capability would be substantially diminished if the rural fire brigades did not receive the funding provided to them by Council as a direct consequence of the levying of the special charge.

#### 6.2 Special Charge – Road Maintenance Wattlegrove Road Quarry

## (a) Reason

In accordance with Section 94(3) of the *Local Government Act 2009* and Chapter 4, Part 6 of the *Local Government Regulation 2012*, the Council has determined that a special charge for a road maintenance, road upgrading and road replacement program will be levied on land described as Lot 459 FY2482 relating to the extractive industry operation located at 1304 Wattlegrove Road, Wattle Grove.

The proceeds of the special charge will be used to implement a road program for Wattlegrove Road, Minmore Road, Deep Creek Road and River Road as described in the Overall Plan which is necessary to mitigate and manage the impacts on those roads caused by the use of this property for extractive industry purposes.

Revenue Statement 2019/20

Extractive industry operations cause a significant increase in heavy vehicle traffic utilising Council's local road network, which accelerates the deterioration of those roads at a rate far greater than would have been the case for ordinary traffic use. This land use specially contributes to the need for Council to expend considerable funds in order to maintain service and maintenance standards to that road network.

The Overall Plan represents Council's response to addressing these needs in a financially responsible way as it relates specifically to Wattlegrove Road, Minmore Road, Deep Creek Road and River Road and the Extractive Industry Properties.

#### (b) Basis on which Road Maintenance Charges Calculated

In accordance with Section 94 of the *Local Government Regulation 2012*, the special charge for Wattlegrove Road has been established to recover the annualised cost to maintain, upgrade and replace the haulage roads from the Wattlegrove Road Quarry along Wattlegrove Road, Minmore Road, Deep Creek Road and River Road to the Bunya Highway. The total estimated cost of a 20 year program to undertake these works is \$536,245 or \$26,812.24 annually.

Consultation between Infrastructure, Corporate Services and Finance departments of Council has occurred in order to develop this plan. Consultation with McCullough Robertson Lawyers has been undertaken to ensure that Council adheres to the legal requirements.

Additionally consultation has occurred between the quarry property owners and operators of the Extractive Industry Properties. The landowners are aware of the special rates charge, as in this instant they are also the applicant (Crawfords).

The extractive industry approval was issued on 20 March 2019.

It is intended that during the period the Overall Plan remains current, Council will also develop and adopt annual implementation plans every financial year in support of this Overall Plan as required by the Local Government Regulation.

It is anticipated the Road Program will commence on 1<sup>st</sup> July 2019 and continue to 30<sup>th</sup> June 2039. Council proposes to start levying special rates and charges on the Extractive Industry Properties at the budget meeting for the 2019/20 financial year.

Under this Overall Plan, the levying of special rates and charges on the Extractive Industry Properties will occur over an estimated 20-year period. Accordingly, the estimated time for carrying out the Overall Plan is 20 years.

It is intended that Council will adopt an annual implementation plan for each of the years the Overall Plan will be in effect in accordance with the Local Government Regulation.

An annual implementation plan for a financial year is a document setting out the actions or processes that are to be carried out in the financial year for the service facility or activity to which the special rates or charges apply.

Council may review this Overall Plan from time to time and may, by resolution, amend this Overall Plan or an annual implementation plan.

#### 6.3 Special Charge - Road Maintenance Tim Dwyer Rd Quarry

#### (a) Reason

In accordance with Section 94(3) of the Local Government Act 2009 and Chapter 4, Part 6 of the Local Government Regulation 2012, the Council has determined that a special charge for

Revenue Statement 2019/20 Page 18

a road maintenance, road upgrading and road replacement program will be levied on land described as Lot 169 CSH697 relating to the extractive industry operation located at 79 Tim Dwyer Road, East Nanango.

The proceeds of the special charge will be used to implement a road program for Tim Dwyer Road, Greenwood Creek Road, Old Esk North Road, South Street and Arthur Street East as described in the Overall Plan which is necessary to mitigate and manage the impacts on those roads caused by the use of this property for extractive industry purposes.

Extractive industry operations cause a significant increase in heavy vehicle traffic utilising Council's local road network, which accelerates the deterioration of those roads at a rate far greater than would have been the case for ordinary traffic use. This land use specially contributes to the need for Council to expend considerable funds in order to maintain service and maintenance standards to that road network.

The Overall Plan represents Council's response to addressing these needs in a financially responsible way as it relates specifically to Tim Dwyer Road, Greenwood Creek Road, Old Esk North Road, South Street and Arthur Street East and the Extractive Industry Properties.

### (b) Basis on which Road Maintenance Charges Calculated

In accordance with Section 94 of the *Local Government Regulation 2012*, the special charge for Tim Dwyer Road has been established to recover the annualised cost to maintain, upgrade and replace the haulage roads from the Tim Dwyer Road Quarry along Tim Dwyer Road, Greenwood Creek Road, Old Esk North Road, South Street and Arthur Street East to the D'Aguilar Highway. The total estimated cost of a 20 year program to undertake these works is \$424,635 or \$21,231.76 annually.

Consultation between Infrastructure, Corporate Services and Finance departments of Council has occurred in order to develop this plan. Consultation with McCullough Robertson Lawyers has been undertaken to ensure that Council adheres to the legal requirements.

Additionally consultation has occurred between the quarry property owners and operators of the Extractive Industry Properties. The landowners are aware of the special rates charge, as in this instant they are also the applicant (David Cassidy).

The extractive industry approval was issued on 21 February 2018.

It is intended that Council will adopt an annual implementation plan for each of the years the Overall Plan will be in effect in accordance with the Local Government Regulation.

An annual implementation plan for a financial year is a document setting out the actions or processes that are to be carried out in the financial year for the service facility or activity to which the special rates or charges apply.

Council may review this Overall Plan from time to time and may by resolution, amend this Overall Plan or an annual implementation plan.

## 6.4 Special Charge – Road Maintenance Wilsons Road Quarry

#### (a) Reason

In accordance with Section 94(3) of the Local Government Act 2009 and Chapter 4, Part 6 of the Local Government Regulation 2012, the Council has determined that a special charge for a road maintenance, road upgrading and road replacement program will be levied on land

Revenue Statement 2019/20

described as Lot 49 BO544 relating to the extractive industry operation located at Wilsons Road, Gordonbrook.

The proceeds of the special charge will be used to implement a road program for Wilsons Road as described in the Overall Plan which is necessary to mitigate and manage the impacts on those roads caused by the use of this property for extractive industry purposes.

Extractive industry operations cause a significant increase in heavy vehicle traffic utilising Council's local road network which accelerates the deterioration of those roads at a rate far greater than would have been the case for ordinary traffic use. This land use specially contributes to the need for Council to expend considerable funds in order to maintain service and maintenance standards to that road network.

The Overall Plan represents Council's response to addressing these needs in a financially responsible way as it relates specifically to Wilsons Road and the Extractive Industry Properties.

#### (b) Basis on which Road Maintenance Charges Calculated

In accordance with Section 94 of the *Local Government Regulation 2012*, the special charge for Wilsons Road has been established to recover the annualised cost to maintain, upgrade and replace the haulage road from the Wilsons Road Quarry along Wilsons Road to the Memerambi-Gordonbrook Road. The total estimated cost of a 20 year program to undertake these works is \$126,013 or \$6,300.64 annually.

Consultation between Infrastructure, Corporate Services and Finance departments has occurred in order to develop this plan. Consultation with McCullough Robertson Lawyers has been undertaken to ensure that Council adheres to the legal requirements.

Additionally consultation has occurred between the quarry property owners and operators of the Extractive Industry Properties.

The extractive industry approval was issued on 10 October 2018.

It is intended that Council will adopt an annual implementation plan for each of the years the Overall Plan will be in effect in accordance with the Local Government Regulation.

An annual implementation plan for a financial year is a document setting out the actions or processes that are to be carried out in the financial year for the service facility or activity to which the special rates or charges apply.

Council may review this Overall Plan from time to time and may by resolution, amend this Overall Plan or an annual implementation plan.

## 6.5 Special Charge - Road Maintenance Burra Burri Road Quarry

#### (a) Reason

In accordance with Section 94(3) of the Local Government Act 2009 and Chapter 4, Part 6 of the Local Government Regulation 2012, the Council has determined that a special charge for a road maintenance, road upgrading and road replacement program will be levied on land described as Lot 67 BO576 relating to the extractive industry operation located at 1229 Burra Burri Road, Durong.

The proceeds of the special charge will be used to implement a road program for Burra Burri Road and Aberdeen Avenue as described in the Overall Plan which is necessary to mitigate

Revenue Statement 2019/20

and manage the impacts on those roads caused by the use of this property for extractive industry purposes.

Extractive industry operations cause a significant increase in heavy vehicle traffic utilising Council's local road network which accelerates the deterioration of those roads at a rate far greater than would have been the case for ordinary traffic use. This land use specially contributes to the need for Council to expend considerable funds in order to maintain service and maintenance standards to that road network.

The Overall Plan represents Council's response to addressing these needs in a financially responsible way as it relates specifically to Burra Burri Road and Aberdeen Avenue and the Extractive Industry Properties.

#### (b) Basis on which Road Maintenance Charges Calculated

In accordance with Section 94 of the *Local Government Regulation 2012*, the special charge for Burra Burri Road has been established to recover the annualised cost to maintain, upgrade and replace the haulage road from the Burra Burri Road Quarry along Burra Burri Road and Aberdeen Avenue to the Chinchilla-Wondai Road. The total estimated cost of a 20 year program to undertake these works is \$427,876.20 or \$21,393.81 annually.

Consultation between Infrastructure, Corporate Services and Finance departments has occurred in order to develop this plan. Consultation with McCullough Robertson Lawyers has been undertaken to ensure that Council adheres to the legal requirements.

Additionally consultation has occurred between the quarry property owners and operators of the Extractive Industry Properties.

The extractive industry approval was issued on 20 March 2019.

It is intended that Council will adopt an annual implementation plan for each of the years the Overall Plan will be in effect in accordance with the Local Government Regulation.

An annual implementation plan for a financial year is a document setting out the actions or processes that are to be carried out in the financial year for the service facility or activity to which the special rates or charges apply.

Council may review this Overall Plan from time to time and may by resolution, amend this Overall Plan or an annual implementation plan.

#### 6.6 Special Charge - Road Maintenance Manar Road Quarry

#### (a) Reason

In accordance with Section 94(3) of the *Local Government Act 2009* and Chapter 4, Part 6 of the *Local Government Regulation 2012*, the Council has determined that a special charge for a road maintenance, road upgrading and road replacement program will be levied on land described as Lot 7 BO179 relating to the extractive industry operation located at 1551 Manar Road, Boondooma.

The proceeds of the special charge will be used to implement a road program for Manar Road as described in the Overall Plan which is necessary to mitigate and manage the impacts on those roads caused by the use of this property for extractive industry purposes.

Extractive industry operations cause a significant increase in heavy vehicle traffic utilising Council's local road network which accelerates the deterioration of those roads at a rate far greater than would have been the case for ordinary traffic use. This land use specially

Revenue Statement 2019/20

contributes to the need for Council to expend considerable funds in order to maintain service and maintenance standards to that road network.

The Overall Plan represents Council's response to addressing these needs in a financially responsible way as it relates specifically to Manar Road and the Extractive Industry Properties.

## (b) Basis on which Road Maintenance Charges Calculated

In accordance with Section 94 of the *Local Government Regulation 2012*, the special charge for Manar Road has been established to recover the annualised cost to maintain, upgrade and replace the haulage road from the Manar Road Quarry along Manar Road to the Mundubbera-Durong Road. The total estimated cost of a 20 year program to undertake these works is \$871,848 or \$43,592.41 annually.

Consultation between Infrastructure, Corporate Services and Finance departments has occurred in order to develop this plan. Consultation with McCullough Robertson Lawyers has been undertaken to ensure that Council adheres to the legal requirements.

Additionally consultation has occurred between the quarry property owners and operators of the Extractive Industry Properties. The landowners are aware of the special rates charge, as in this instant they are also the applicant (Sabre).

The extractive industry approval was issued on 18 December 2018.

It is intended that Council will adopt an annual implementation plan for each of the years the Overall Plan will be in effect in accordance with the Local Government Regulation.

An annual implementation plan for a financial year is a document setting out the actions or processes that are to be carried out in the financial year for the service facility or activity to which the special rates or charges apply.

Council may review this Overall Plan from time to time and may by resolution, amend this Overall Plan or an annual implementation plan.

## 7. Separate Rates or Charges

#### 7.1 Separate Charge – Waste Management Levy

#### (a) Reason

In accordance with Section 92(5) of the *Local Government Act 2009* and Chapter 4, Part 8 of the *Local Government Regulation 2012*, the Council has determined that a separate charge will be levied equally on all rateable lands in the Region to enable Council to fund issues specifically for the provision, improvement and management of waste management facilities.

## (b) Basis on Which Waste Management Charge Calculated

Revenue raised from this charge will only be used to fund either all or part of the costs associated with provision, improvement and management of waste management facilities. It is considered to be more appropriate to raise funds by a separate charge rather than from general funds to ensure the community is aware of the Council's commitment to the long-term appropriate management of waste. It also considers the benefit is shared equally by all parcels of land regardless of their value. Full particulars of the waste management initiatives funded by the levy are set out in Council's budget papers.

### 7.2 Separate Charge - Community Rescue and Evacuation Levy

Revenue Statement 2019/20

#### (a) Reason

In accordance with Section 92(5) of the *Local Government Act 2009* and Chapter 4, Part 8 of the *Local Government Regulation 2012*, the Council has determined that a separate charge will be levied equally on all rateable lands in the Region to enable Council to provide funds for the purpose of sponsoring the aerial emergency rescue and evacuation transport providers that service the South Burnett Region.

#### (b) Basis on Which Special Medical Evacuation Calculated

Revenue raised from this charge will only be used to fund sponsorship of the aerial emergency rescue and evacuation transport providers that service the South Burnett Region. In Council's opinion, it is more appropriate to raise funds by a separate charge rather than from general funds to ensure the community is aware of the Council's commitment to ensure ongoing support for this vital community service. It also considers the benefit is shared equally by all parcels of land regardless of their value.

#### Utility Charges

#### 8.1 Wastewater Utility Charges

#### (a) Reason

The Council operates separate waste water and common effluent schemes set out in Schedule A and determines that the net cost of providing wastewater services to lands, including operating and maintenance costs, capital costs and debt servicing charges will be fully funded by a charge on those lands receiving the service or to which the service is deemed to be available.

#### (b) Basis on Which Wastewater Charges Calculated

Until otherwise determined by the Council the basis and principles of assessing charges to be levied under Section 92(4) of the *Local Government Act 2009* and Chapter 4, Part 7 of the *Local Government Regulation 2012* for the purpose of defraying the interest and redemption charges to loan liability incurred by the Council for Wastewater services (including Common Effluent Disposal Systems) and the cost of operating and maintaining wastewater systems (including common effluent disposal) in the declared wastewater areas set out in Schedule A shall in respect of all land and premises in the area, whether the land on which any structure, building or place is situated, is or is not rateable under the *Local Government Act 2009*, shall be as follows:

- (i) In respect of all lands and premises which are connected with Council's Wastewater Systems (including common effluent systems):
  - A charge to be fixed by the Council, for each pedestal connected to the wastewater system, other than extra pedestals installed in a private residence for the sole use of the occupier and their family.
- (ii) In respect of each allotment of Vacant Land (land not connected to the wastewater system) rateable under the Local Government Act 2009 situated within the declared wastewater areas:
  - A charge to be fixed by the Council.
- (iii) Where any premises not connected to the Council's wastewater system, become connected during the year, the charges under Clause (i) shall become operative from the date of connection, with proportionate rebate from that date, of those made under Clause (ii).

Revenue Statement 2019/20

#### 8.2 Waste Management Utility Charges - Residential and Commercial

#### (a) Reason

Council determines that the net cost of providing waste management utility including operation and maintenance costs, capital costs and debt servicing costs will be funded by those lands receiving the service. Details of the areas receiving a refuse service are set out in Schedule B.

#### (b) Basis on Which Waste Management Utility Charges Calculated

Until otherwise determined by the Council the basis and principles of assessing charges to be levied under Section 92(4) of the *Local Government Act 2009* and Chapter 4, Part 7 of the *Local Government Regulation 2012*, for the purpose of defraying the cost of supplying waste management services (including the storage, collection and removal of general waste) on all lands and structures to which a waste management service is supplied or, in the case of rateable land which is occupied, made available by Council as defined in the schedule of declared refuse areas set out in Schedule B and those lands and premises outside the declared refuse areas where an optional cleansing service is requested shall be as follows:

- (i) In respect of all lands and premises contained within the declared refuse area:
  - A charge to be fixed by the Council for each domestic refuse service for the declared refuse collection area.
- In respect of all lands and premises outside the declared refuse areas where an optional cleansing service is requested:
  - A charge to be fixed pursuant to section (i).
- (iii) The Bunya Mountains waste management utility charge is a separate utility charge levied in respect of:
  - (a) The complexity and difficulty of waste management service provision for the Bunya Mountains; and
  - (b) The collection of domestic waste from domestic premises situated in the Bunya Mountains and the collection of commercial waste from commercial premises situated in the Bunya Mountains in circumstances where the domestic waste and commercial waste is deposited in, and collected from, bulk waste containers which are set aside for collection of domestic waste and commercial waste at the Bunya Mountains.
  - A charge to be fixed pursuant to section (i).
- (iv) In respect of all lands and premises either contained within a declared refuse area or outside a declared refuse area where garbage and refuse are removed other than in accordance with Clause (i) and (ii) (i.e. Commercial Waste Collection).
- A charge fixed pursuant to section (i) for each equivalent 240 litre container provided.

#### 8.3 Water Supply Charges

#### (a) Reason

The Council operates separate water supply schemes set out in Schedule C, and determines that the net cost of providing a water supply including operation and maintenance costs, capital costs and debt servicing costs will be fully funded by charges on those lands receiving a supply or to which a supply is deemed to be available.

- (b) Basis on which Water Supply Charges Calculated
- (i) Access Charge: In accordance with Section 92(4) of the Local Government Act

Revenue Statement 2019/20

2009 and Chapter 4, Part 7 of the Local Government Regulation 2012, the costs of administration, costs associated with the source of supply and depreciation will be funded by a fixed charge on those lands receiving the service or to which the service is deemed to be available in each scheme.

Council believes that it is logical and equitable for all users to contribute to the fixed costs of the water supply operation. The basis of apportionment of this cost shall be the supply capacity made available to the connected premises, as a measure of the proportionate share of the capacity of the system utilised by the connected property.

| Meter Size             | Capacity Factor |
|------------------------|-----------------|
| 20mm                   | 1.0             |
| 25mm                   | 1,6             |
| 32mm and 40mm          | 2.5             |
| 50mm and 80mm          | 6.5             |
| 100mm                  | 15.0            |
| Vacant (not connected) | 0.5             |

This direct correlation is varied as follows:

- (a) All connections below 25mm are deemed to be the same capacity;
- (b) Domestic properties which due to low pressure related matters only, require the installation of a larger than normal (20 mm) water meter, are to be charged the equivalent of a 20mm connection base charge;
- (c) Domestic properties which due to low pressure related matters only, require the installation of an additional water meter, are to be charged the equivalent of a single 20mm connection base charge only;
- (d) In the case of units as defined under the Body Corporate and Community Management Act 1997 where the complex has a main meter, and individual units do not have an individual meter, then the base water charge for each unit will be levied as if the unit had a 20mm service connected;
- (e) In the case where there are 2 or more lots and an improvement is constructed across a property boundary, provided that a connected access charge is being levied for one lot, then vacant charges will not apply to the other vacant (land not connected to the water system) lot;
- (f) In the case of properties defined as "Rural" except for properties connected to the Proston Rural Water Scheme under Council's differential rating criteria where multiple services are connected a charge for each additional connection shall be 50% of a single 20mm base charge;
- In the case of properties on the Proston Rural Supply Scheme an access charge for each connection will apply; and
- (h) In the case where a specifically dedicated metered service connection is provided for fire-fighting capability a charge for each service shall be 50% of a single 20mm access charge.
- (ii) <u>Usage Charge</u>: In Accordance with Section 92(4) of the Local Government Act 2009 and Chapter 4, Part 7 of the Local Government Regulation 2012, the cost of reticulation of water supply will be funded by a per kilolitre charge for every kilolitre of water used as measured by a meter. Meters shall be read as near as practicable to June 30 and December 31 each year. Water Consumption charges will be included on each Half Yearly Rate Notice.

Properties will be split into separate tariffs based on their Differential Rate

Revenue Statement 2019/20

Category. Residential Tariffs are comprised of Residential (1, 201, 203, 301, 401), Rural Residential (910, 920, 930, 940, 950, 960) and Village (3) Rate Categories.

Business Tariffs are comprised of Commercial (2, 202, 204, 302, 402), Shopping Centre (9, 10, 99) Industrial (8, 208, 209, 308, 408) Extractive (211, 212, 213) Coal Mine (414) Power Generation (215, 220, 221, 222, 223, 224, 225, 230, 231, 232, 233, 234, 235) Rural Land (6) Water Pumping and Storage (419) and Other (7) Rate Categories.

This charge for all schemes excluding Proston Rural Water Supply Scheme is based on a tier system, calculated on the volume of water used in kilolitres (1000's of litres). The step or tier system rewards households with low water usage, and penalises households with high water usage. Council believes that the higher consumption charge for higher steps will be a significant incentive for residents to conserve water.

The step or tier system will also provide commercial operations that use significant volumes of water with a slight reduction in consumption charges compared to the top two (2) tiers for residential tariffs.

In the case of the water used by the Proston Rural Water Supply Scheme a flat per kilolitre charge for every kilolitre of water used as measured by a meter will apply.

The tiers or steps that apply to all size connections are shown in the table below.

For connections greater than 20mm, the steps are increased proportionally with the capacity factor mentioned in (b) (i) above.

| Meter Size    | Capacity Factor | Step 1    | Step 2        | Step 3 |
|---------------|-----------------|-----------|---------------|--------|
| 20mm          | 1.0             | 0 - 125   | 126 - 250     | >250   |
| 25mm          | 1.6             | 0 - 200   | 201 – 400     | >400   |
| 32mm and 40mm | 2.5             | 0-313     | 314 - 625     | >625   |
| 50mm and 80mm | 6.5             | 0 - 813   | 814 – 1,625   | >1,625 |
| 100mm         | 15.0            | 0 - 1,875 | 1,876 - 3,750 | >3,750 |
|               |                 |           |               |        |

## 9. Discount and Other Benefits for Prompt Payment of Rates

#### (a) Reason

To encourage early payment of rates, Council will offer ratepayers a discount on payments received during the nominated discount period in accordance with Section 130 of the Local Government Regulation 2012.

For discount to be allowed, full payment of all rates, (including overdue rates), charges, interest, fees and levies appearing on the rate notice must be received by Council or approved agency by the close of business on or before the due date.

Property owners who have entered into a Deferred Payment Arrangement (Concession Agreement) approved by Council to pay off Memerambi Special Charges (Roadworks and Drainage) and have paid all necessary instalments (excluding future instalments not yet due for payment) in accordance with the Deferred Payment Arrangement will qualify for discount on general rates and utility charges but will not qualify for discount on the special charges.

This is conditional upon the full payment of all other rates (including overdue rates), charges, interest, fees and levies appearing on the rate notice being received by Council or approved agency by the close of business on or before the due date.

Revenue Statement 2019/20

In the case of electronic payments, discount will be allowed if full payment as described above, is received and recorded on Council's accounts on or before the due date.

The discount period will be a period of at least thirty (30) clear days commencing from the issue date shown on the rate notice and concluding on the due date shown on the rate notice.

## (b) Basis on Which Discount Calculated

For payments made during the discount period – a period of at least thirty (30) clear days commencing from the issue date shown on the rate notice and concluding on the due date shown on the rate notice.

Discount will apply to the following rates and charges:

- General Rates levied 10%
- Wastewater charge levied 10%
- Water access charge levied 10%
- Garbage charge levied 10%

However, discount does not apply to the following charges, which may appear on the rate notice:

- State Emergency (Urban) Fire Levy
- Rural Fire Brigade Levy
- Road Maintenance (Quarry) Special Charges
- Water Consumption charges
- Community Rescue and Evacuation Levy
- Waste Management Levy
- Road & Drainage Works Memerambi Estate Levy
- Any property charge relating to the carrying out of works (e.g. Slashing/Grass cutting or eradication of noxious weeds)
- Legal costs incurred by Council in rate collection
- Interest charges on overdue rates

## (c) Approval of Early Payment Discount for Late Payments

There are occasions when payment by the due date is not able to be achieved through circumstances beyond the control of the ratepayer. The *Local Government Regulation 2012* provides Council with the discretionary power to allow discount in such circumstances.

## Payments Made After the Due Date

Discount may be allowed, if the full payment of the overdue rates and charges has been made or will be made within the period specified by Council AND the applicant provides proof of any of the following:

- (a) Illness involving hospitalization and/or incapacitation of the ratepayer at or around the time of the rates being due for discount.
- (b) The death or major trauma (accident/life threatening illness/emergency operation) of the ratepayer and/or associated persons (spouse/children/parents) at or around the time of the rates being due for discount.
- (c) The loss of records resulting from factors beyond their control (fire/flood).
  Further, that Council is satisfied that the event is the cause of the applicants' failure to make full payment by the due date.

Revenue Statement 2019/20

#### Late Payments Due to Postal Difficulties

Discount will be approved if the non-receipt of the rate notice or rate payment or late receipt of the payment by Council where the reason for such non-receipt or late payment is separately substantiated by:

- (a) Written concurrence of the applicable mail carrier that problems existed with the mail deliveries; or
- (b) Written evidence that a mail re-direction was current at that location at the time that the rate notice was issued, or when the rates were due for payment; or
- (c) The return of the rate notice to Council although correctly addressed; or
- (d) Other evidence that payment of the rates was made by the ratepayer at that time, but did not reach Council due to circumstances beyond the control of the ratepayer. In such circumstances, Council will consider the past payment history of the ratepayer, and whether such circumstances have been claimed before; or
- (e) Where an administrative error occurred at the Department of Natural Resources and Mines that resulted in the rate notice being incorrectly addressed by Council.

Discount will **NOT** be allowed if the circumstances above are:

- As a result of the failure of the ratepayer to ensure that Council was given the correct notification of the address for service of notices prior to the issue of the rate notice; or
- As a result of a change of ownership, where Council received notification of the change of ownership after the issue of the rate notice.

#### Administrative Errors

An extended discount period will be allowed if Council has failed to correctly issue the rate notice in sufficient time to permit the ratepayer to make payment before the expiration of the discount period. The extended discount period will be equivalent to that period provided to other ratepayers and will commence from the date of the replacement notice.

#### Other Errors

Where there is an apparent accidental short payment of the rates resulting from a miscalculation of the net amount due on the part of the ratepayer, arising from the payment of a number of rate notices at one time (i.e. Addition error) OR the tendering of an incorrect amount for a single rate notice (i.e. transposition error) THEN discount will be allowed in the following manner:

- a. Where the amount of the error is \$50 or less:
  Full discount will be allowed and the underpaid amount will be treated as 'Arrears of Rates'.
- b. Where the amount of the error is more than \$50:
  The ratepayer will be advised in writing of the error and given 14 days to pay the shortfall. If the shortfall is paid by the extended due date, then full discount will be allowed.

The allowing of discount under these circumstances will <u>NOT</u> be allowed if any transposition error or addition error exceeds 20% of the total net rates payable on a single rate notice, or the number of rate notices paid at one time.

Revenue Statement 2019/20

#### 10. Interest on Overdue Rates

#### (a) Reason

The Council has determined that all rates and charges will be determined as overdue for the charging of interest if they remain unpaid after thirty (30) days from the due date of the relevant rate notice. (i.e. sixty (60) days from the issue date of the relevant rate notice).

#### (b) Basis on Which Interest Calculated

Interest will be charged on all overdue rates in accordance with Section 133 of the *Local Government Regulation 2012*. The interest shall be compound interest, calculated on daily rests. The interest rate shall be determined each year based on the monthly average yield of 90-day bank accepted bills as published by the Reserve Bank of Australia as at the end of March in the financial year immediately before the current financial year, plus 8%. For the 2019/20 financial year, this will be 9.83% (1.83% + 8%).

#### 11. Collection of Outstanding Rates and Charges

Council requires payment of rates and charges within the specified period and it is Council's policy to diligently pursue the collection of overdue rates and charges. However, Council will take into account individual circumstances or the financial hardships faced by relevant ratepayers.

To cater for this, Council has established balanced administrative processes that allow flexibility in ratepayer payment options including payment by regular instalments. At the same time, these processes include a variety of options, including legal action through a debt recovery specialist, that allow the effective recovery of overdue rates, depending on the level of resistance experienced.

#### (a) Arrangements to Pay

Pursuant to Chapter 4, Part 10 of the *Local Government Regulation 2012*, arrangements to pay will be entered into where the ratepayer and Council agree that such arrangements will allow the outstanding rates and charges to be paid in full by the end of the current half year.

While a ratepayer maintains an arrangement to pay, Council will suspend all legal action, and will suspend all interest charges.

Council may also agree to enter into arrangements to pay where the outstanding rates and charges will not be paid in full by the end of the current half yearly period. These arrangements will be considered by Council on a case by case basis, and may require the ratepayer to make an initial lump sum payment of up to 50% of the outstanding rates.

Where a ratepayer defaults on an arrangement to pay, in the first instance, Council will attempt to make contact with the ratepayer, and negotiate for the return of the arrangement to an "up to date" position.

If the ratepayer fails to rectify the arrangement, or repeatedly defaults on the arrangement, then the arrangement to pay will be cancelled, and the suspension on interest charges and legal action will be lifted. Additionally, Council will not enter into any further rate arrangements until such time as all outstanding rates and charges are paid in full.

#### 12. Payment Methods

Council offers ratepayers a wide and varied range of payment methods to pay rates. This includes Cash, Cheque or Money Order; Credit and Debit Card via EFTPOS at Council's

Revenue Statement 2019/20

Administration Offices; Credit Card or Debit Card over the telephone or internet via BPAY, or payment by cash, cheque, Credit Card or Debit Card at any Australia Post outlet in Australia, or payment by Credit Card or Debit Card via Telephone or Internet via Australia Post Bill Pay.

Other additional payment options will be considered and implemented where appropriate.

#### 12.1 Payments in Advance

Council does accept payments in advance – either the estimated amount of future rate levies or smaller amounts paid by instalments. Credit interest is not payable to ratepayers on any credit balances held.

#### 12.2 Issue of Rate Notices

#### (a) Half Yearly Rate Notices

Council will issue separate rate notices (half yearly) for each six months of the year. The rate notice for the first six months of the financial year (July to December) will generally be issued in August each year. The rate notice for the second six months of the financial year (January to June) will generally be issued in February each year. Each half yearly notice will also include water consumption charges for the previous six month period.

### (b) Monthly Water Consumption Notices

For selected large water consumers, where the cumulative cost of water consumed for the regular six month period would be prohibitive and cause undue hardship, Council will consider the monthly issue of rate notices for this purpose.

#### (c) Pro Rata/Supplementary Rate Notices

Council will issue Supplementary Rate Notices for adjustments and variations in rates and charges on an "as required" basis during the year.

In accordance with Section 92(4) of the *Local Government Act 2009* and Chapter 4 Part 7of the *Local Government Regulation 2012*, where the use made of particular land varies (e.g. vacant land has a building constructed, or an existing building is altered), utility charges will be amended as follows:

#### i. Garbage Services

Where the garbage charge payable in respect of a particular premises is situated inside a declared garbage collection area, then the new service, or alteration/reduction to an existing service, shall be charged (or refunded as the case may be) on a pro rata basis and become operative from the date of commencement/alteration to the service.

## ii. Water Supply Services

In the case of a new service being connected to a property situated within a declared water area, the new service shall be charged on a pro rata basis and become operable from the date of installation of the service.

In the case of an alteration to an existing service to a property situated within a declared water area, the addition/reduction of the service shall be charged on a pro rata basis and become operable from the date of installation/disconnection of the service.

Revenue Statement 2019/20

In the case of land being subdivided (including Group Title) within a declared water area, the water charge shall be charged on a pro rata basis and become operable from the date of the sales of the new lots.

In the case where there has been an identified problem with a water meter, the consumption charge shall be calculated on a pro rata basis according to the average daily consumption over the previous three (3) years, or for whatever period is applicable to the current owner if less than three (3) years. Otherwise, it will be at the discretion of the Chief Executive Officer or his delegate.

In the case there has been an undetected water leak, plumbing failure or actions outside of the control of the ratepayer, the amount of relief from payment of the measured water consumption charge will be calculated on a pro rata basis according to the average daily consumption over the previous three (3) years, or for whatever period is applicable to the owner if less than three (3) years. However, the amount of relief cannot be more than 50% of the difference between the average consumption and the consumption actually registered for the relevant period.

#### iii. Wastewater Services

In the case of a new building constructed on a property situated within a declared wastewater area, the new service shall be charged on a pro rata basis and become operable from the date of connection/connection (final inspection) of the service to the wastewater scheme.

In the case of an alteration to an existing building on a property situated within a declared wastewater area, the addition/reduction of the service shall be charged on a pro rata basis and become operable from the date of connection/disconnection of the service to the wastewater scheme.

In the case of land being subdivided (including Group Title) within a declared wastewater area, the wastewater charge shall be charged on a pro rata basis and become operable from the date of the sales of the new lots.

#### 13. Cost Recovery Fees and Business Activity Fees

#### 13.1 Cost Recovery Fees

Council imposes cost recovery fees for services and facilities supplied by it under the Local Government Act and Local Laws for things such as applications, approvals, consents, licenses, permission, registration, information given, admission to certain structures or places or inspection made.

These Cost Recovery Fees are set at or below a level which is based as far and accurately as possible on the actual cost of providing the particular service to which the fee relates. All Cost Recovery Fees are listed in Council's Register of Fee and Charges.

## 13.2 Business Activity Fees

Council has the power to conduct business activities and make business activity fees for services and facilities it provides on this basis. Business activity fees are made where Council provides a service and the other party to the transaction can choose whether or not to avail itself of the service. Business activity fees are a class of charge, which are purely commercial in application and are subject to the Commonwealth's Goods and Services Tax.

Business activity fees include but are not confined to the following: rents, plant hire, private

Revenue Statement 2019/20 Page 31

works and hire of facilities.

#### 14. Concessions on Rates and Charges

#### 14.1 Pensioner Concession

It is Council's policy to provide assistance by way of a concession of rates to pensioners who meet the administrative guidelines for the Queensland Government pensioner rate subsidy scheme.

The Council concession is in addition to the State Government approved pensioner rate subsidy.

For 2019/20, Council will match the State Government approved pensioner subsidy and provide a concession to approved pensioners:

(a) A general concession of 20% of the rate to a maximum of \$200 per annum.

This concession is granted pursuant to Section 96 of the *Local Government Act 2009* and sections 120, 121 and 122 of the *Local Government Regulation 2012*. The concession will be distributed equally across both of the Half Yearly Rate Notices issued.

In summary, applications for the Pensioner Concession are to be made on the appropriate application form. Approved Pension cards include a current Centrelink Queensland Pensioner Concession Card; a Department of Veterans' Affairs Gold Card or a Department of Veterans' Affairs Pensioner Concession Card.

The dwelling for which the concession is claimed shall be the principal place of residence for the applicants. Where an eligible pensioner/s resides some or all of the time in a Nursing Home or with family due to ill health, the residence may be regarded as the principal place of residence, as long as it is not occupied on a paid tenancy basis.

Applications should be received by 30 June in each year to be considered for the forthcoming year.

In the case of an approved pensioner/s that buys, sells or becomes deceased, a pro rata adjustment shall be made from the date of the transfer or death.

Where the property is held in joint ownership, then a pro rata concession shall be granted in proportion to the share of ownership, except where the co-owners are an approved pensioner and his/her spouse (including de facto relationships as recognised by Commonwealth Legislation).

In the case of exclusive occupancy or life tenancy granted by a will, a certified copy of same must be furnished to Council before a full concession will be granted.

#### 14.2 Concession on Vacant Water and Wastewater Charges for Developers

The Council has determined that where developers are required to reticulate water and sewerage to a subdivision, an exemption from vacant water and sewerage charges will apply for a period of up to five (5) years unless there is a prior sale of such allotments and will apply from the date of registration of the plan. The concession is granted in accordance with the provisions of section 120, 121 and 122 of the *Local Government Regulation 2012*.

## 14.3 Concession on Special, Separate and Utility Charges

The Council has determined that certain rateable land held in the ownership of groups or organizations, which provide a public service or community benefit, will receive a concession

Revenue Statement 2019/20 Page 32

on certain special, separate and utility charges. The categories of organisations that qualify for the concessions are listed in Schedule D. The concession is granted in accordance with the provisions of sections 120, 121 and 122 of the *Local Government Regulation 2012*.

#### 14.4 Waiving of Water Usage Charges - Haemodialysis Machines

The Council has determined that where ratepayers or residents require the use of a Haemodialysis machine for health reasons, then Council will grant a concession of water consumption charges.

For compassionate reasons, Council will allow an annual concession of 190kl on the water usage to any patient who qualifies for and operates a home Haemodialysis machine supplied by Queensland Health.

This concession is granted in accordance with sections 120, 121 and 122 of the Local Government Regulation 2012.

#### 14.5 Waiving of Minimum General Rate - Bore and Pump Sites, Small Parcels

The Council has determined that the following classes of land will be exempted from the requirement to pay the minimum general rate levy, but will pay a valuation based differential general rate which will be less than the minimum.

- (a) Any rateable land held as a Permit to Occupy for water facility purposes, namely bore and pump site and associated purposes only.
- (b) Properties that are small parcels of land worked in conjunction with properties held in the same ownership and identified in Schedule E. This concession is granted in accordance with sections 120, 121 and 122 of the Local Government Regulation 2012.

## 14.6 Deferment of Liability to Pay Memerambi Special Charges (Roadworks and Drainage) in Full

The Council acknowledges that for property owners that have been levied Memerambi Special Charges, having to pay these charges in full by the due date shown on the rate notice issued 23 August 2016, will cause property owners hardship.

Consequently, Council is prepared to enter into a concession agreement with each property owner, under which the property owner is permitted, under certain conditions, to pay their Memerambi Special Charges by instalments over a ten (10) year period.

In the event that the property owner has entered into a concession agreement to pay the Memerambi Special Charges and fails to make the special charges instalment payments in accordance with the concession agreement, then interest will be applied to those overdue rates and charges at the rate set by Council for the prevailing financial year, like any other overdue rates and charges. Interest will be charged until the instalment payment has been made or until the concession agreement has been adhered to. Further action may also be undertaken in accordance with Council's Rate Collection Policy.

A property owner wishing to enter into a concession agreement must do so in accordance with the terms and conditions set out in the section 7.10 of the Infrastructure Agreement [Memerambi Village Roads and Drainage].

This concession is granted in accordance with Chapter 4 Part 10 (Section 125) of the *Local Government Regulation 2012*.

Revenue Statement 2019/20

#### 14.7 Concession on Memerambi Special Charges (Roadworks and Drainage) for Borrowing Expenses and Interest Charges

The Council has determined that where a property owner pays their entire Memerambi Special Charges in full by the due date displayed on the rate notice issued 23 August 2016, or at any time prior to the cessation of the 10-year instalment period, the property owner will be eligible for a pro rata concession on the Council borrowing expenses and interest charges that have been factored into the Memerambi Special Charges.

This concession is granted in accordance with sections 120, 121 and 122 of the Local Government Regulation 2012.

#### 15. Land Exempted from Rating

## 15.1 Exemption/Concession on General Rates

In accordance with the provisions of Section 93 of the *Local Government Act 2009* and sections 120, 121 and 122 of the *Local Government Regulation 2012*, the Council has determined that land held in the ownership of groups or organizations which provide a public service or community benefit will receive a concession on differential general rates. Details are listed in Schedule D.

Revenue Statement 2019/20

## 16. Schedules:

## Schedule A – Defined Sewerage Areas

| Scheme      | Evidence  |  |  |  |
|-------------|---|--|--|--|
| Nanango     | <ul> <li>Each parcel of land:</li> <li>i) Contained within the area identified in Figure 2 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or</li> <li>ii) Determined by Council resolution from time to time as being within the defined sewerage area for Nanango and being capable of being connected to the relevant sewerage system.</li> </ul> |  |  |  |
| Blackbutt   | Each parcel of land:  i) Contained within the area identified in Figure 2 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or  ii) Determined by Council resolution from time to time as being within the defined sewerage area for Blackbutt and being capable of being connected to the relevant sewerage system.                                   |  |  |  |
| Kingaroy    | Each parcel of land:  i) Contained within the area identified in Figure 2 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or  ii) Determined by Council resolution from time to time as being within the defined sewerage area for Kingaroy and being capable of being connected to the relevant sewerage system.                                    |  |  |  |
| Wondai      | Each parcel of land:  i) Contained within the area identified in Figure 2 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or  ii) Determined by Council resolution from time to time as being within the defined sewerage area for Wondai and being capable of being connected to the relevant sewerage system.                                      |  |  |  |
| Proston CED | Each parcel of land:     Contained within the area identified in Figure 2 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or     Determined by Council resolution from time to time as being within the defined CED area for Proston and being capable of being connected to the relevant sewerage system.   |  |  |  |
| Murgon      | Each parcel of land:  i) Contained within the area identified in Figure 2 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or  ii) Determined by Council resolution from time to time as being within the defined sewerage area for Murgon and being capable of being connected to the relevant sewerage system.                                      |  |  |  |

## Schedule B - Defined Refuse Collection Areas

| Area         | Evidence   |  |
|--------------|--|--|
| Kingaroy     | Each premises located within the shaded area contained in the Kingaroy North<br>Designated Refuse Serve Area map and the Kingaroy South Designated Refuse<br>Serve Area map as determined by Council resolution from time to time. |  |
| Nanango      | Each premises located within the shaded area contained in the Nanango Designated Refuse Serve Area map as determined by Council resolution from time to time.  |  |
| Murgon       | Each premises located within the shaded area contained in the Murgon Designated Refuse Serve Area map as determined by Council resolution from time to time.   |  |
| Mondure      | Each premises located within the shaded area contained in the Mondure Designated Refuse Serve Area map as determined by Council resolution from time to time.  |  |

## Schedule B - Defined Refuse Collection Areas

| Area  | Evidence  |  |  |
|---|---|--|--|
| Booie   | Each premises located within the shaded area contained in the Boole Designated Refuse Serve Area maps as determined by Council resolution from time to time.      |  |  |
| Blackbutt, Benarkin, Teelah and Taromeo  Each premises located within the shaded area contained in the Blackbutt, Ben Teelah and Taromeo Designated Refuse Serve Area map as determined by Corresolution from time to time. |   |  |  |
| Ellesmere   | ach premises located within the shaded area contained in the Ellesmere Designated<br>Refuse Serve Area map as determined by Council resolution from time to time. |  |  |
| Brooklands  | Each premises located within the shaded area contained in the Brooklands Designated Refuse Serve Area map as determined by Council resolution from time to time.  |  |  |
| Kumbia  | Each premises located within the shaded area contained in the Kumbia Designated Refuse Serve Area map as determined by Council resolution from time to time.      |  |  |
| Maidenwell  | Each premises located within the shaded area contained in the Maidenwell Designated Refuse Serve Area map as determined by Council resolution from time to time.  |  |  |

## Schedule C - Defined Water Area

| Water Area   | Evidence  |  |  |
|--|---|--|--|
| Nanango  | Each parcel of land:  i) Contained within the area identified in Figure 1 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or  ii) Determined by Council resolution from time to time as being within the defined water area for Nanango and capable of being connected to the relevant water scheme.                                 |  |  |
| Blackbutt  | Each parcel of land:  i) Contained within the area identified in Figure 1 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or  ii) Determined by Council resolution from time to time as being within the defined water area for Blackbutt and capable of being connected to the relevant water scheme.                               |  |  |
| Kingaroy   | Each parcel of land:  i) Contained within the area identified in Figure 1 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or  ii) Determined by Council resolution from time to time as being within the defined water area for Kingaroy and capable of being connected to the relevant water scheme.                                |  |  |
| Kumbia   | Each parcel of land:  i) Contained within the area identified in Figure 1 'South Burnett Sewerage Are the Customer Service Standards, Version 1.1 - November 2014; or  ii) Determined by Council resolution from time to time as being within the dwater area for Kumbia and capable of being connected to the relevant scheme.   |  |  |
| Wooroolin  | Each parcel of land:     Contained within the area identified in Figure 1 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or     Determined by Council resolution from time to time as being within the defined water area for Wooroolin and capable of being connected to the relevant water scheme.                                |  |  |
| Wondai/ Tingoora  Each parcel of land:  i) Contained within the area identified in Figure 1 'South Burnett Sewerage the Customer Service Standards, Version 1.1 - November 2014; or  ii) Determined by Council resolution from time to time as being within the water area for Wondai/Tingoora and capable of being connected to the water scheme. |   |  |  |
| Proston/<br>Proston Rural  | Each parcel of land:  i) Contained within the area identified in Figure 1 'South Burnett Sewerage Areas' in the Customer Service Standards, Version 1.1 - November 2014; or  ii) determined by Council resolution from time to time as being within the defined water area for Proston or Proston Rural Water Supplies and capable of being connected to the relevant water scheme. |  |  |

Revenue Statement 2019/3(1

## Schedule C - Defined Water Area

| Water Area | Evidence   |  |  |
|------------|--|--|--|
|            | Each parcel of land:   |  |  |
| Boondooma  | <ul> <li>i) Contained within the area identified in Figure 1 'South Burnett Sewerage Areas' in<br/>the Customer Service Standards, Version 1.1 - November 2014; or</li> </ul>                        |  |  |
| Dam        | <ol> <li>Determined by Council resolution from time to time as being within the defined<br/>water area for Boondooma Dam and capable of being connected to the relevant<br/>water scheme.</li> </ol> |  |  |
|            | Each parcel of land:   |  |  |
| Murgon     | <ol> <li>Contained within the area identified in Figure 1 'South Burnett Sewerage Areas' in<br/>the Customer Service Standards, Version 1.1 - November 2014; or</li> </ol>                           |  |  |
|            | <ul> <li>Determined by Council resolution from time to time as being within the defined<br/>water area for Murgon and capable of being connected to the relevant water<br/>scheme.</li> </ul>        |  |  |

# Schedule D – Exemptions/Concessions for General Rates, Special, Separate and Utility Charges

Section 93 of the Local Government Act 2009 and sections 120, 121 and 122 of the Local Government Regulation 2012 provides for exemptions and/or concessions for rates and charges levied on certain classes of land. Council has determined the following exemptions or rate concessions:

| Concession Category                    | Differential<br>General<br>Rates | Separate<br>Rates | Water<br>Access | Sewerage<br>Access | Waste<br>Bin |
|--|----------------------------------|-------------------|-----------------|--------------------|--------------|
| Queensland Country Women's Association | 100%                             | 100%              | 75%             | 75%                | 0%           |
| Youth Accommodation                    | 100%                             | 100%              | 0%              | 0%                 | 0%           |
| Youth Groups - Scouts, Guides          | 100%                             | 100%              | 100%            | 100%               | 100%         |
| Seniors and Welfare Groups             | 100%                             | 100%              | 50%             | 50%                | 0%           |
| Kindergartens                          | 100%                             | 100%              | 0%              | 0%                 | 0%           |
| Service & Other Clubs                  | 100%                             | 100%              | 75%             | 75%                | 0%           |
| Show grounds                           | 100%                             | 100%              | 50%             | 50%                | 0%           |
| Race grounds                           | 100%                             | 100%              | 0%              | 0%                 | 0%           |
| Museums, Theatres, Heritage            | 100%                             | 100%              | 100%            | 100%               | 0%           |
| Sporting Groups & Associations         | 100%                             | 100%              | 75%             | 75%                | 0%           |
| Charitable Organisations               | 100%                             | 100%              | 0%              | 0%                 | 0%           |
| Community Owned Halls                  | 100%                             | 100%              | 0%              | 0%                 | 0%           |

- Property owners must notify Council immediately if there is a substantive change in land use for a property that is receiving a rate concession.
- Applications received during the current financial year that fall within the categories below, will be granted a rate concession following the passing of a resolution by Council.
- If a property has previously been granted a rate concession in the previous financial year, the owner will not be required to re-apply to receive the rate concession for the current financial year. However, they may be required to provide proof of their ongoing eligibility if requested to do so.

## Schedule E - Exemptions from Minimum Rating

In accordance with Section 93 of the *Local Government Act 2009* and sections 120, 121 and 122 of the *Local Government Regulation 2012* the Council has determined that certain classes of land will be exempted from the requirement to pay the minimum general rate levy, but will pay a valuation based differential general rate which will be less than the minimum.

- (i) Any rateable land held as a Permit to Occupy for water facility purposes, namely bore and pump site and associated purposes only.
- (ii) Properties that are small parcels of land worked in conjunction with properties held in the same ownership and identified in table hereunder:

| Assess No | Owner                                      | Property Description and Location |
|-----------|--|-----------------------------------|
| 31384     | GSR Silburn                                | Hebbel Drive, Tablelands          |
| 31598-1   | A Bradley and C Ewart and J and I Hinricks | Bradleys Road, Wooroonden         |
| 31632     | Gympie Timber Company Pty Ltd              | Morgans Road, Windera             |

## 1. POLICY STATEMENT

Under the Local Government Act 2009, the Council is required to have a system of financial management that includes a Revenue Policy. Further, under the Local Government Regulation 2012, Council must review its Revenue Policy annually in sufficient time to allow an annual budget that is consistent with the Revenue Policy to be adopted for the next financial year. The Revenue Policy is a component of System of Financial Management. Its adoption, in advance of setting the budget, allows Council to set out the principles that it will use to set its budget and to identify in broad terms the general strategy to be used for raising revenue.

Section 193 of the Local Government Regulation 2012 requires a Local Government to adopt a Revenue Policy for each financial year. The Revenue Policy must state:

- Details of the principles that Council intends to apply for:
  - Levying rates and charges;
  - · Granting concessions for rates and charges;
  - · Recovering overdue rates and charges; and
  - Cost-recovery methods.
- If the Local Government intends to grant concessions for rates and charges the purpose for the concessions; and
- The extent to which physical and social infrastructure costs for new development are to be funded by charges for the development.

This Revenue Policy will specifically address the legislative requirements in respect of those policy matters detailed above. The Policy will clearly state the principles used in making, levying and recovery of rates and charges, as well as the principles governing any rebates and concessions provided, and any limitations on these matters.

#### 2. SCOPE

Applies to all revenue raising undertaken by Council.

## 3. POLICY OBJECTIVES

The purpose of this Revenue Policy is to set out the principles used by Council for:

- The making and levying of rates and charges;
- · The recovery of rates and charges; and

Revenue Policy 2019/2020

Page 1 of 5

Exercising of its power to grant rebates and concessions for rates and charges.

#### 4. BACKGROUND AND/OR PRINCIPLES

The Local Government Regulation 2012 requires Local Governments to adopt a Revenue Policy as one of its Financial Policies. Section 193 of the Local Government Regulation 2012 sets out the requirements of the Revenue Policy.

#### 5. GENERAL INFORMATION

#### 5.1. Levying of Rates and Charges

Rates and charges are determined after due consideration of the following:

- Council's legislative obligations.
- The needs and expectations of the general community as determined by formal and informal consultation and survey processes.
- The cost of maintaining existing facilities and necessary services.
- The need for additional facilities and services.
- Equity by ensuring the fair and consistent application of lawful rating and charging principles, without bias, taking account of all relevant considerations, and disregarding irrelevancies such as the perceived personal wealth of individual ratepayers or ratepayer classes.

In levying rates and charges, Council will apply the principles of:

- Making clear what is the Council's and each ratepayers responsibility to the rating system;
- Making the levying process, granting discount and any refund of rates and charges as simple and efficient to administer as possible;
- Timing the levy rate notices to take into account the financial cycle to which the ratepayers are accustomed or may adapt to; and
- Flexibility by providing payment arrangements to ratepayers with a demonstrated lower capacity to pay, along with a wide array of payment options.

Council will also have regard to the principles of:

- Transparency of process.
- Simplicity and efficient administration.
- Flexibility to take account of changes in the local economy, extraordinary circumstances and impacts that different industries may have on Council's infrastructure.

#### 5.1.1.General Rates

General Rates revenue provides essential whole of community services not funded through subsidies, grants, contributions or donations received from other entities, or not provided for by other levies or charges. Council will consider all full cost recovery options before calculating the general rate.

Council is required to raise an amount of revenue it sees as being appropriate to maintain assets and provide services to the Region as a whole. In deciding how that revenue is raised, Council has formed the opinion that the differential general rating scheme provides the most equitable basis for the distribution of the general rate burden.

In formulating the differential general rating scheme Council has considered equity by implementing distribution of the general rate based on the land use. Where necessary a particular class of land use is further 'subdivided' on a geographic basis.

The Unimproved Valuation/Site Value for each property is the basis for determining the amount of the general rate levied. Council recognises that significant valuation fluctuations may have an adverse effect on customers. Council considers that this impact should be smoothed so that the impact in any one year is reduced. Council may achieve this by establishing new differential rating categories, averaging the valuation in accordance with

Revenue Policy 2019/2020

Page 2 of 5

Sections 74 to 76 of the *Local Government Regulation 2012* or by limiting rate increases in accordance with Section 116 of the *Local Government Regulation 2012*.

#### 5.1.2. Separate or Special Rates

Where appropriate, Council will fund certain services and facilities by means of separate or special rate or charge in accordance with Part 6 and Part 8 of the *Local Government Regulation 2012*. Council will levy special rates and charges on certain properties that are considered to be specially benefited by the provision of specific services, facilities or activities.

Special rates are based on the Unimproved Valuation/Site Value of the land and special charges are a flat charge per property, where this is considered to provide a more equitable basis for the sharing of the cost.

#### 5.1.3.Other Charges

In general, Council will be guided by the principle of user pays where it can easily identify the cost associated with supplying a particular service. In particular Council may use this principle for water supply, sewerage, refuse collection, et cetera. Provided however that where Council considers that moving to full cost recovery for a particular service may cause undue hardship Council will "phase in" the full cost recovery over a period of time.

#### 5.2. Recovery of Rates and Charges

Council will exercise its rate recovery powers in order to reduce the overall rate burden on ratepayers. It will be guided by the principles of:

- Transparency by making clear the obligations of ratepayers and the processes used by Council in assisting them meet their financial obligations;
- Simplicity by making the processes used to recover outstanding rates and charges clear, simple to administer and cost effective;
- Capacity to Pay by determining appropriate arrangements for different sectors of the community;
- Equity by providing the same treatment for ratepayers with similar circumstances; and
- Flexibility by responding where necessary to changes in the local economy.

#### 5.3. Concessions for Rates and Charges

Statutory provision exists for the Council to rebate or postpone rates in certain circumstances. These provisions are detailed in Part 10 of the *Local Government Regulation 2012*.

In considering the application of concessions, Council will be guided by the principles of:

- Equity by having regard to the different levels of capacity to pay within the local community:
- Consistency by applying the same treatment for ratepayers with similar circumstances;
- Transparency by making clear the requirements necessary to receive concessions; and
- Flexibility by allowing Council to respond to local economic issues.

The predominant purpose for which Council grants concessions is to:

- Assist pensioners (who are on very limited incomes), in meeting their obligations to pay Council's rates and charges; and
- Assist various Religious Organisations, Community Groups and Sporting Organisations
  who provide a public service or community benefit throughout the region in meeting their
  obligations to pay Council's rates and charges.

## 5.4. Cost Recovery Fees

Section 97 of the *Local Government Act 2009* allows Council to set cost recovery fees. The Council recognises the validity of fully imposing the user pays principle for its cost recovery fees, unless the imposition of the fee is contrary to its express social, environmental and other

Revenue Policy 2019/2020

Page 3 of 5

corporate goals. This is considered to be the most equitable and effective revenue approach, and is founded on the basis the Region's rating base cannot subsidise the specific users or clients of Council's regulatory products and services.

However, in setting its cost recovery fees, Council will be cognizant of the requirement that such a fee must not be more than the cost to Council of providing the service or taking action to which the fee applies.

#### 5.5. Commercial Charges

Sections 9 (Powers of local governments generally) and 262 (Powers in support of responsibilities) of the *Local Government Act 2009* provide the Council, as a legal entity, with powers to charge for services and facilities it supplies other than a service or facility for which a cost recovery fee may be fixed.

Such commercial charges are for transactions where the Council is prepared to provide a service and the other party to the transaction can choose whether or not to avail itself of the service.

The nature, level and standard of the entitlement, facility or service is considered by the Council in the setting of commercial charges. Central to deliberations on these matters is the Council's community service obligation and the principle of social equity. The Council may set such a charge with the aim of achieving a profit from the service or facility provided.

The principle of "user pays" is considered where the provision of a service, entitlement or facility may be in direct competition with private enterprise.

#### 5.6. Funding of Physical and Social Infrastructure Costs

Council requires developers to pay reasonable and relevant contributions towards the cost of infrastructure required to support the development. Specific charges are detailed in "Adopted Infrastructure Charges" resolution adopted by Council.

These charges are based on normal anticipated growth rates. Where a new development is of sufficient magnitude to accelerate the growth rate of a specific community within the region, it may be necessary to bring forward social infrastructure projects. Where this occurs, Council expects developers to meet sufficient costs so that the availability of facilities is not adversely affected and so that existing ratepayers are not burdened with the cost of providing the additional infrastructure.

Mark Pitt CHIEF EXECUTIVE OFFICER

20 March 2019

## 2.10 Value of Change in Rates and Utility Charges

In accordance with Section 169 of Local Government Regulation 2012:

- The budget must include the total value of the change, expressed as a percentage, in the rates and utility charges levied for the financial year compared with the rates and utility charges levied in the previous budget, and
- For calculating the rates and utility charges levied for a financial year, any discounts and concessions must be excluded.

Council's rates and utility charges revenue is projected to increase through a combination of natural growth and general increase by 4.04% in 2019/20 compared with the rates and utility charges levied in 2018/19.

## 3. Budget Analysis

## 3.1 Analysis of 2019/20 to 2021/22 Operating Budgets

This section of the report analyses the expected revenues and expenses of the South Burnett Regional Council for the 2019/20 to 2021/22 year.

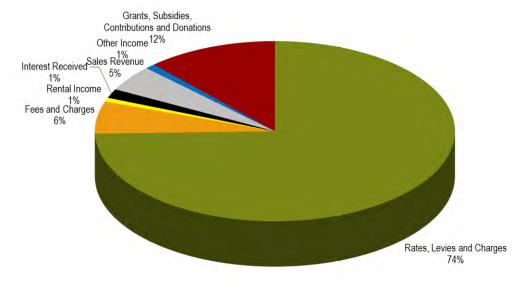

A projection of Council's operating deficit or surpluses for above budget periods is listed in the table below:

| Projected Surplus  |     |               |               |           |  |  |
|--------------------|-----|---------------|---------------|-----------|--|--|
| Program            |     | 2019/20       | 2020/21       | 2021/22   |  |  |
| General Operations | -\$ | 2,841,956 -\$ | 2,099,726 -\$ | 1,755,814 |  |  |
| Plant and Fleet    | \$  | 231,735 \$    | 219,544 \$    | 206,511   |  |  |
| Water              | \$  | 306,325 \$    | 664,487 \$    | 591,075   |  |  |
| Waste Water        | \$  | 242,718 \$    | 300,780 \$    | 361,148   |  |  |
| Waste Management   | \$  | 521,228 \$    | 662,788 \$    | 815,159   |  |  |
| Total              | -\$ | 1,539,950 -\$ | 252,127 \$    | 218,079   |  |  |

## 3.1.1.1 Rates and Charges

This item shows the South Burnett Regional Council's total net income from general rates, service charges (water, sewerage and garbage) and special charges.

| Rate or Charge                       | 2019/20          | 2020/21          | 2021/22          |
|--------------------------------------|------------------|------------------|------------------|
| General Rates                        | \$<br>28,779,472 | \$<br>29,574,359 | \$<br>30,330,497 |
| Water Charges                        | \$<br>9,673,161  | \$<br>10,221,793 | \$<br>10,808,085 |
| Sewerage Charges                     | \$<br>5,775,952  | \$<br>5,893,032  | \$<br>6,012,493  |
| Waste Collection Charges             | \$<br>2,136,701  | \$<br>2,191,295  | \$<br>2,247,277  |
| Community Rescue and Evacuation Levy | \$<br>73,975     | \$<br>75,454     | \$<br>76,963     |
| Waste Management Levy                | \$<br>2,639,086  | \$<br>2,810,626  | \$<br>2,993,317  |
| Memerambi Estate Levies              | \$<br>19,035     | \$<br>19,416     | \$<br>19,804     |
| Total                                | \$<br>49,097,381 | \$<br>50,785,975 | \$<br>52,488,436 |

Details of all Council's rates and charges are listed in the <u>4.1 Schedule of Rates and Charges</u> attached to this document.

Rate concessions for eligible pensioners have been maintained at \$200 and when combined with the State Government remission, eligible pensioners will receive up to \$400 off their rate bill.

## 3.1.1.2 User Fees and Charges

User charges are for the recovery of service delivery costs through the charging of fees to users for Council services. Fees are determined in two categories:

- Regulatory Fees for services provided under legislation such as animal registrations,
   Health Act registrations and licences, development fees.
- Commercial Fees for services provided by Council on a commercial basis such as hall rentals, caravan park fees, pool fees.

#### 3.1.1.3 Rental Income

Council operates various facilities from which it derives a rental income such as commercial premises, caravan parks, community housing and airport.

#### 3.1.1.4 Other Recurrent Income

Recurrent income is sundry income derived from all other sources and includes items such as:

- Agency Payments from QGap and Centrelink
- Visitor Information Centres, Museum and Art Gallery Income
- Sundry Waste Income
- Other Miscellaneous Income

#### 3.1.1.5 Sales Income

Sales income is income received from undertaking work for Main Roads, private works and recoverable works conducted by the Soil Laboratory. Some of key items are:

- Soil Laboratory Recoverable Works
- General Private Works
- DTMR Road Maintenance Contracts

## 3.1.1.6 Operational Grants

Operating grants include all monies received from state and federal sources for the purposes of funding the delivery of South Burnett Regional Council services to ratepayers.

- Grants Commission Grant
- Natural Resource Management Grants
- Fuel Rebate
- Library Subsidy
- SES Operational Grant
- Trainee Subsidy
- RADF Grant

## 3.1.1.7 Interest Revenue

Interest revenue includes interest on investments and rate arrears.

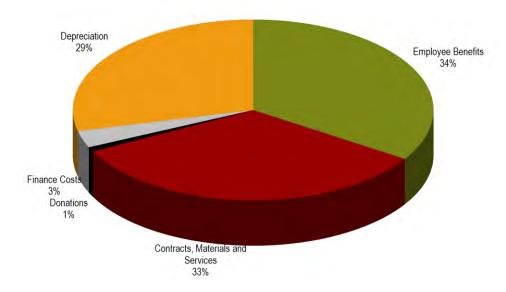

## 3.1.2 Expenditure

Apart from items which required more detailed review expenses were generally increased by 2%.

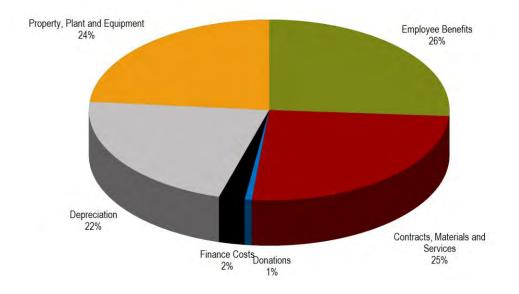

**Operating Expenditure**

## 3.1.2.1 Employee Costs

Employee costs include all labour related expenditure such as wages, leave entitlements, workcover costs, superannuation, training, personal protective equipment, payroll and fringe benefits taxes.

3.1.2.2 Materials and Services

Materials and services cover the purchases of consumables, payments to contractors for the provision of services and utility costs.

#### 3.1.2.3 Donations

Donations identified in budget:

- Concession on Rates and Charges
- Contributions made from raising funds from Separate Charges:
  - Community Rescue and Evacuation Levy RACQ Lifeflight
- Grants made under Council's Community Assistance Policy

## 3.1.2.4 Finance (Borrowing) Costs

Borrowing costs relate to interest charged by financial institutions on funds borrowed. All Council's borrowings are with the Queensland Treasury Corporation.

## 3.1.2.5 Depreciation

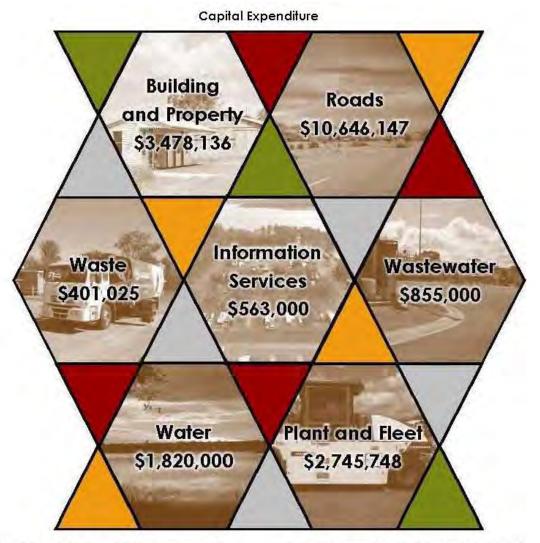

Depreciation is an accounting measure which estimates the usage of South Burnett Regional Council's property, infrastructure, plant and equipment assets. The depreciation reflects the current valuations and is distributed as follows:

| Asset Class            | 2019/20          | 2020/21          | 2021/22          |
|------------------------|------------------|------------------|------------------|
| Buildings              | \$<br>2,228,710  | \$<br>2,250,997  | \$<br>2,273,507  |
| Plant and ICT          | \$<br>2,367,452  | \$<br>2,391,127  | \$<br>2,415,038  |
| Roads                  | \$<br>10,341,743 | \$<br>10,445,160 | \$<br>10,549,612 |
| Water                  | \$<br>2,269,135  | \$<br>2,291,826  | \$<br>2,334,742  |
| Waste Water (Sewerage) | \$<br>1,864,966  | \$<br>1,883,616  | \$<br>1,902,452  |
| Waste Management       | \$<br>50,109     | \$<br>50,611     | \$<br>51,117     |
| Intangibles            | \$<br>309,561    | \$<br>312,657    | \$<br>315,784    |
| Total                  | \$<br>19,431,676 | \$<br>19,625,994 | \$<br>19,842,252 |

### 3.2 Analysis of Capital Budget

This section of the report analyses the planned capital expenditure budgets for the 2019/20 to 2021/22 years and the sources of funding for the capital budget.

- \$416K to replace roof sheeting, roof tie downs and restumping of Mondure Hall
- \$193K to re-sheet the roof at Ringsfield House
- \$240K for various upgrades at Yallakool Caravan and Recreation Park
- \$135K for computer replacements
- \$2.745M for the replacement of various Council plant and fleet
- \$350K on the Maidenwell Transfer Station
- \$400K to update scada/cyber security to sites to telemetry, Murgon
- \$325K on Mount Wooroolin Reservoir roof replacement\$165K on water main replacement – Drayton Street (Brisbane to

- Home), George Street (Drayton to Elk) and Alfred Street (Gipps to Henry), Nanango
- \$65K on water main replacement Wills Street West (Gipps to Cairns), Nanango
- \$5.026M on gravel re-sheeting as per the Gravel Re-Sheeting Plan
- \$380K to bitumen seal missing link (approximately 2km) on Old Esk Road (Nanango)
- \$154K bitumen seal upgrade to unsealed portion on Niagara Road
- \$140K on bitumen reseal and rehabilitation to Mary Street, Coolabunia State School carpark and bus zone
- \$100K on town entry signage

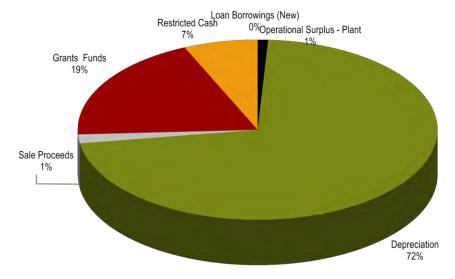

### 3.2.1 Funding Sources

Funding for Capital Works can be split into two sources of funds:

- External Funds Capital Grants and Developer Contributions; and
- Internal Sources Proceeds from Sale of Assets, Restricted Cash, Loan Borrowings, Funded Depreciation and Operating Surpluses.

| Funding Sources                   | Projected<br>2019/20 | Projected<br>2020/21 | Projected<br>2021/22 |
|-----------------------------------|----------------------|----------------------|----------------------|
| Operational Surplus - Plant       | \$<br>231,735        | \$<br>219,544        | \$<br>206,511        |
| Depreciation                      | \$<br>17,891,726     | \$<br>19,373,867     | \$<br>19,842,252     |
| Sale Proceeds                     | \$<br>400,000        | \$<br>400,000        | \$<br>400,000        |
| Grants Funds                      | \$<br>4,783,791      | \$<br>3,975,221      | \$<br>3,266,291      |
| Restricted Cash                   | \$<br>1,661,372      | \$<br>2,088,419      | \$<br>2,179,885      |
| Loan Borrowings (New)             | \$<br>-              | \$<br>12,000,000     | \$<br>17,000,000     |
| Total Funding Sources             | \$<br>24,968,624     | \$<br>38,057,051     | \$<br>42,894,939     |
| Principal Payments                | \$<br>2,545,731      | \$<br>2,668,509      | \$<br>3,212,651      |
| Total Available Funding for Capex | \$<br>22,422,893     | \$<br>35,388,542     | \$<br>39,682,288     |

### 3.2.1.1 Grants - Capital

Capital grants and contributions include all monies predominantly received from state and federal government sources for the purposes of funding the capital works program and include the following:

- TIDS Funding
- Roads to Recovery
- Work for Queensland

## 3.2.1.2 Contributions

Contributions are received from various sources to support the delivery of specific projects. There are no contributions in the capital budget for 2019/20.

### 3.2.1.3 Proceeds from Sale of Assets

Included in the budget for 2019/20 is the following anticipated income from the sale of assets:

Sale of Plant and Equipment

#### 3.2.1.4 Restricted Cash

Council's cash and cash equivalents are subject to a number of internal restrictions that limit the use of these funds for working capital.

A list of Council's restricted cash is included in the statements attached to this report.

#### 3.2.1.5 Loan Funds

There are no loans proposed to be raised during the 2019/20 budget year, however Council has identified a series of loans for future years mainly to renew water supplies and sewerage facilities.

This forward program will be better informed by the outcomes of the Managing the Infrastructure Pipeline Program (MIPP) which will identify regional priorities for Council's existing and future infrastructure demands.

| Purpose                       | 2019/20 |      | 2020/21    | 2021/22          |
|-------------------------------|---------|------|------------|------------------|
| Water Allocation              | \$      | - \$ | 2,000,000  | \$<br>-          |
| Kingaroy Trunk Infrastructure | \$      | - \$ | 10,000,000 | \$<br>5,000,000  |
| Gordonbrook Dam Wall Upgrade  | \$      | - \$ | -          | \$<br>12,000,000 |
| Total                         | \$      | - \$ | 12,000,000 | \$<br>17,000,000 |

### 3.2.1.6 Use of Depreciation and Surpluses

Council also uses funded depreciation and any retained operating surpluses as the source of funds for the capital works program.
